## ABOUT THE COLLEGE

M S Ramaiah College of Arts, Science and Commerce was established in 1994 by our founder Late Dr. M S Ramaiah offering both under graduate and post graduate degrees offered by Bengaluru City University approved by AICTE, New Delhi, recognized by the Government of Karnataka. The college is also recognized by UGC under 2f and 12b of UGC Act 1956, re-accredited "A" grade by NACC

## ABOUT THE DEPARTMENT

The Computer Science department of MSRASC aims to educate students in the science and practice of IT. The emphasis is on hands-on practical training of software development. The curriculum prepares students for a career in the fast lane of software development and programming. The program enables the student to be updated on the latest revolution in technology and equips the students with the required skills and knowledge to assimilate into the industry at ease. The content delivery is uniquely complemented by extensive practical training

### Report on

### Skill Enhancement Program on Machine Learning and AI Using Python

**Date:** 25/11/2021

**Time:** 12:30 PM

**Venue:** Seminar Hall

**Resource Person:** Mr. Manish Kumar Singh

Head, Institutional Collaborations

ATS – Infotech Pvt. Ltd

**Participants:** 95 students (2<sup>nd</sup> and 3<sup>rd</sup> year BCA)

**Objective of the program:** To train the students in the field of Artificial Intelligence and Machine Learning using Python Development Tool.

This session was based on the job opportunity and some awareness of programming languages in the present world. The session was represented by **Mr. Manish Kumar Singh**, Head, Institution Collaborations ATS-Infotech Pvt Ltd. This session was a Skill Enhancement program for students. He said that Coding has emerged as the number-one in-demand skill in recent years. Why it is crucial for students to learn computer programming or coding in today's time? He explained. Technology is prominent almost everywhere -- from smart TVs and technologically advanced kitchen appliances to online games, puzzles and OTTs. A lot more is happening and a lot more is expected to happen in the coming years.

As a result, many new jobs are being created and a significant number of existing jobs are also being re-defined. This is where computer programming or coding becomes a crucial skill for those

searching for the best career prospects or planning to upgrade their existing skills. Coding is a game-changer and the ones who are skilled in coding have a competitive advantage in career. It is true that computer programming was once recognised as a skill reserved for computer nerds and geeks but now, it is popular as an essential ability as well as an added advantage for many job profiles.

It isn't necessarily a thing only for those interested in pursuing a career in computer programming. Today, it is also a key component of many curriculums, even in primary schools.

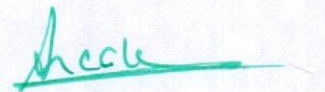

The workshop helps the student to learn about data exploration and machine learning techniques using Python and built-in libraries.

This course includes:

- Introduction to machine learning
- Exploring and using data sets
- Supervised vs Unsupervised learning
- Model evaluation

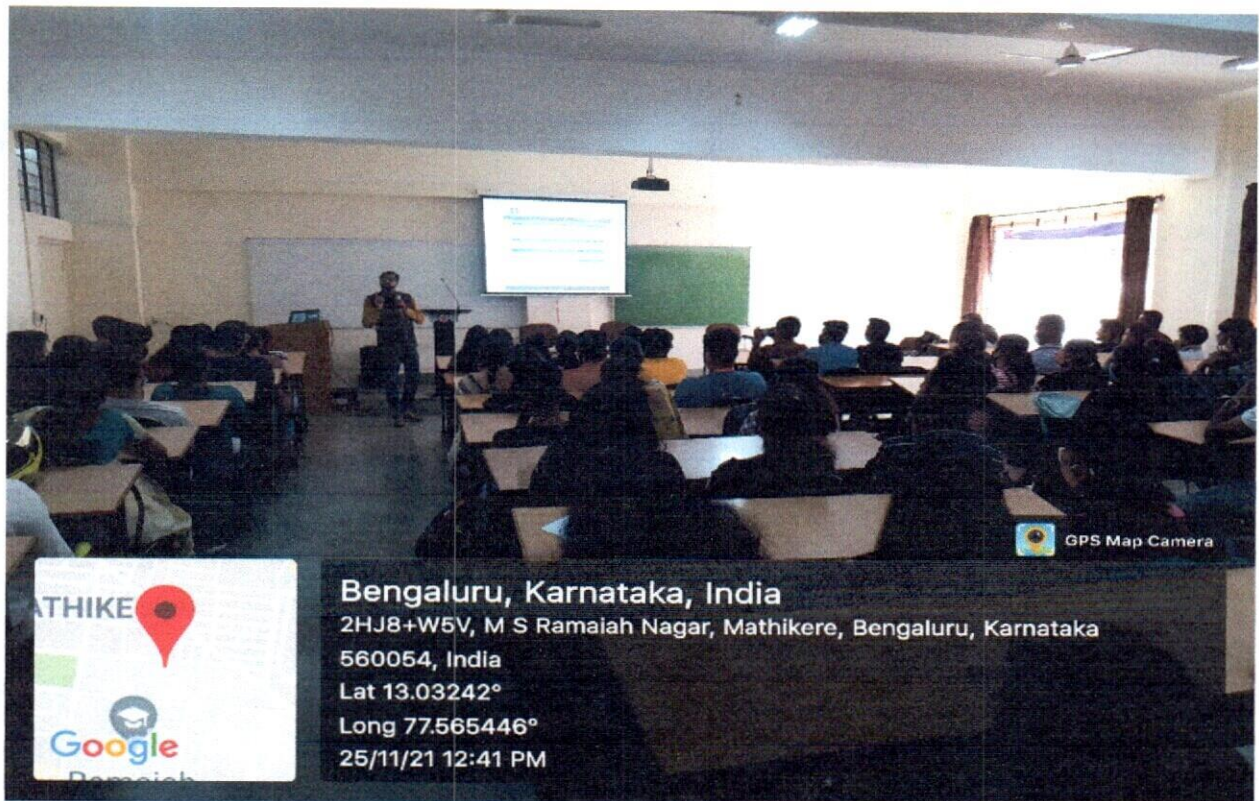

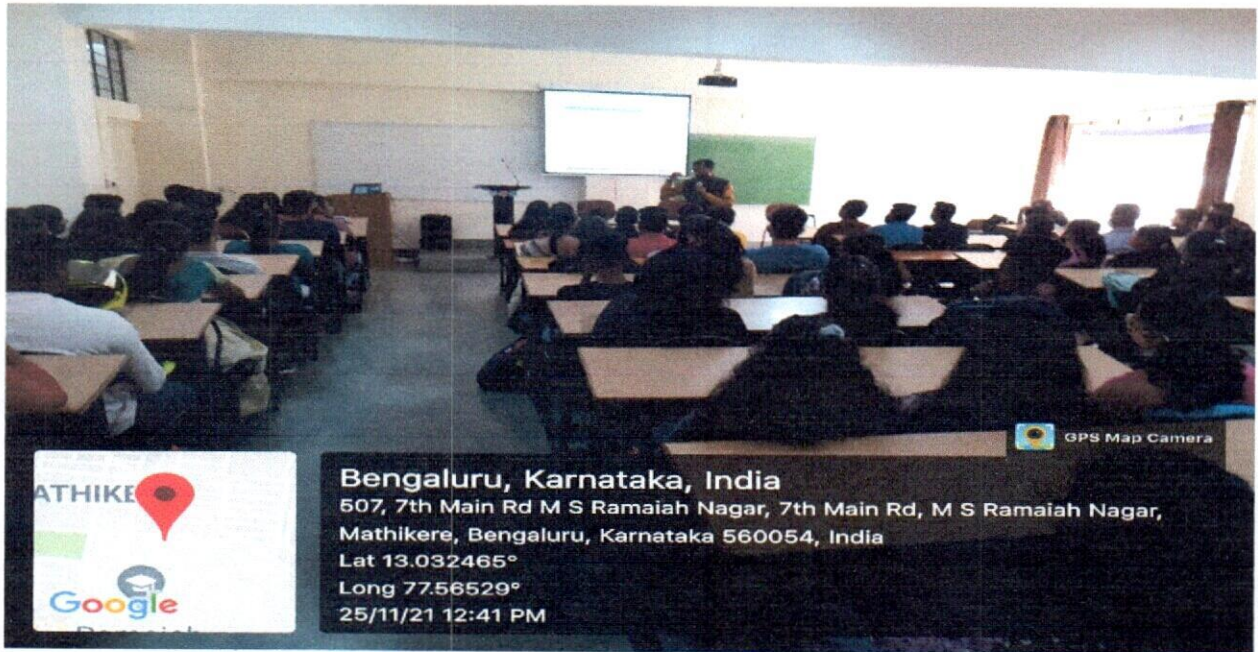

Outcomes:

Host of the show explained each and everything in detail through presenting the images on screen. Students were benefited with all the information provided and started to register for the courses and are going to be trained.
