Principal,

M.S. Ramaiah College of Arts, Science & Commerce
MSRIT Post, MSR Nagar
Bangalore - 560 054

Dr MalleshHonnayya the founder of Robust Pvt Ltd. hosted a time worthy interactive session with the students on 'career counselling'. He not only guided the students about career but also added a lot of inputs on jobs, opportunities and growth.

The main point was for us to understand that job, growth and opportunity were merely different aspects of life and that opportunities are lost when effort is not to maximum potential and with time not utilized in the right way.

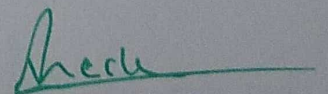

Choosing to be weak or strong lays in an individual's own hand with respect to grabbing hold of the given opportunity and making full use of it.

He quoted that "history and data says that most students/people do not get jobs because of their negative loaded thoughts even though they are capable to hold a position. Going straight ahead without diversions and not letting reasons to deviate brings Results.

Holding reasons instead of performance does not bring any Result and failure knocks the door. Only efforts bring results".He stressed on the point that industrial expectation from a fresher(straight from academics background) demands 100% success rate but ironically they tend to get less than even 10% Job filtration starts from down selecting the CVs

Possibly 2% or less than 2% of employees strive to survive out of the selected people and get jobs.In order to survive the expectation rate of the industries, freshers need to cope up with the company's scenario or they fail to suit the company requirements and ultimately fail to succeed in that respective company.

Considering all these aspects, industries offer training programs officially known as Internal Training for freshers. Industries also consider another term 'Attitude' in addition to Aptitude/Skills and then compile them all to obtain 'Results' from each individual employee to check the success rates.

Principal,

M.S. Ramaiah College of Arts, Science & Commerce
MSRIT Post, MSR Nagar
Bangalore - 560 054

Attitude compiles a lot of terms. Values such as behavior, hardwork, interests, ability to learn, ability to face challenges, thinking on reality basis and so on.

There was a great difference when 'attitude' was added. It played a vital role. Great outcomes were observed in every person and about 70% to 80% success rates were observed in the employees.

The foremost expectations from any industry are

1. Ability to work hard,
2. Ability to learn more,
3. Ability to face challenges,
4. Ability to travel, and many more

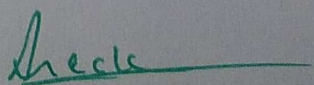

He then told us the difference between opportunity and growth. Opportunity gives an entry to grow but it doesn't give any guarantee, it just provides a channel. If the individual is able to sustain the job requirements and the pressure exerted by the industry by using right attitude with aptitude and by narrowing down the path, the salary and opportunity increases.

Growth is the ability to keep going and it has simple 3 factors

1. Success
2. Health
3. Happiness

Success > Health > Happiness - Reel Growth

Happiness > Health > Success - Real Growth

Principal,
M.S. Ramaiah College of Arts, Science & Commerce
MSRIT Post, MSR Nagar
Bangalore - 560 054

Success along with Health and Happiness is the REAL GROWTH And Success with minimal level of health and happiness is 'reel growth' , because with Happiness comes Health and with both comes REAL Success. Sticking to progressive uplifting of Attitude and Aptitude is the key to achieve any goal. We were listed the possible opportunities after Master Degree - Academics, Industry, Govt jobs Industry related Job Opportunities were shortlisted to,

1. Quality control - food , environmental, chemistry, pharmaceutical, agricultural, herbal and so on.
2. Product development scientist
3. Technology development scientist
(With education)
