ABOUT THE COLLEGE

M S Ramaiah College of Arts, Science and Commerce was established in 1994 by our founder Late Dr. M S Ramaiah offering both under graduate and post graduate degrees offered by Bengaluru City University approved by AICTE, New Delhi, recognized by the Government of Karnataka. The college is also recognized by UGC under 2f and 12b of UGC Act 1956, re-accredited "A" grade by NACC

ABOUT THE DEPARTMENT

The Computer Science department of MSRCASC aims to educate students in the science and practice of IT. The emphasis is on hands-on practical training of software development. The curriculum prepares students for a career in the fast lane of software development and programming. The program enables the student to be updated on the latest revolution in technology and equips the students with the required skills and knowledge to assimilate into the industry at ease. The content delivery is uniquely complemented by extensive practical training

Objective of the program: To prepare students with the technical knowledge and skills needed to protect and defend computer systems and networks. AI can be used to spot cyber threats and possibly malicious activities.

In the 1st session, Mrs. Geetanjali R, gave an amazing presentation giving us the information regarding the basic knowledge of cyber security, technical skills needed to protect and defend computer systems, also the different laws involved in cyber security. She gave in depth knowledge of different types of cybercrimes such as access without permission, data theft, damaging computers, denial of access, access to unauthorized person, identity theft, cyber staking, cyber terrorism and how to secure oneself and take precautions against such crimes which are at their peak these days. Further she emphasized to follow safety rules while browsing or during internet transactions. Few to mention - keeping personal information professional and limited, the type of contents to be downloaded or uploaded, using secure sites for online transaction, updating the antivirus at regular periods. She discussed some real time examples on Cyber Security applications related to social media impacts.

The next session was on the topic digital forensics, imparted the knowledge to students about the importance of digital forensics. Digital forensics requires a large amount of data to be analyzed and extracted from the crime scene and an investigated to provide possible digital evidence as proof in the court of law. She also gave an idea on how machine learning is considered as an approach in the field of digital forensics. Various machine learning algorithms and techniques were discussed to understand the process of extracting and analyzing digital evidence taking real time situations as examples.

The sessions were really interactive and involved student's active participation. The students gave a positive feedback about the seminar and showed their interest in getting further exposure in Cyber Security and digital forensics in Machine Learning.

Outcome of the Seminar:

- The seminar created awareness among the students regarding the different frauds, threats, vulnerabilities possible in the world of internet and how to secure oneself against such threats.
- Students were able to know the importance of Cyber Security when handling their digital assets.
- They were able to understand the role of Machine Learning in IT career.
