Department of Chemistry/Biochemistry

The Department of Chemistry/Biochemistry of Ramaiah College of Arts, Science and Commerce, is organizing a webinar on the topic “**Carrier Opportunities/Future in Clinical Research**” for students under life science stream. The purpose of this event is to Support and connect the untapped talent of our students with Clinical Research Industry Experts and assist them to kick start their career.

Date: 11 September 2021 Saturday.

Time: 11.30 am to 1.30 pm.

Venue: Online mode

Speakers: Cliniassure Team, a clinical research training and consulting firm

Convenors: Mr. Prasanna Kumar S G, Dr. Amarnath Satheesh M, Dr. Harisha S,

Please Register through:

About College

Dr. M S Ramaiah, a visionary and philanthropist established "Gokula Education Foundation (GEF)", in the year 1962, to deliver education and healthcare for the betterment of mankind. Under the tutelage of GEF, M.S Ramaiah college of Arts, Science and Commerce (MSRCASC) was established in 1994. MSRCASC is Re-accredited with "A" Grade by NAAC, permanently affiliated to Bangalore University (BU), and approved by AICTE.

The college offers seven UG courses and four PG courses in Arts, Science, and Commerce, to around 2000 students. The Department of Life Sciences conducts 2 UG and 4PG Programs in Microbiology, Chemistry, Biotechnology and Biochemistry to about 800 students. The dedicated academic faculties from our college have extensive teaching experience and have pursued doctoral and postdoctoral work in eminent institute's in India and abroad.

About Department

The department of Chemistry and Biochemistry was established in the year 1994 and currently conducts both UG and PG courses in Chemistry and Biochemistry. The syllabus is constantly supported by current day, real life applications carrying utility value. The department has very good infrastructural facilities to carry out teaching and research activities. Highly qualified faculties are assigned with theory and practical classes and are instructed to emphasize on the 'learning' of the students. The department undertakes research projects of national importance in the field of biological chemistry and has attracted funds from various agencies.

Through the sincere effort of our faculty we have obtained many University ranks, 90-100% results in both UG and PG courses consistently. Our students have been placed in various companies and many are pursuing their higher education in India and abroad. We encourage students in doing research, present papers at National conferences, publish their findings in Journals of repute and also participate in co-curricular and extra-curricular activities.

About CLINIASSURE

CLINIASSURE is a progressive and premier Clinical Research Training, Consulting and first ever Mentorship Firm in India that is rapidly gaining a good reputation for their unique and innovative way of providing mentorship from group of Industry Experts (In Real Time), making Untapped Clinical Talents Industry Ready and assuring excellence. CLINIASSURE works under Baleshwar Prasad Educational and Social Trust (BALPEST).

CLINIASSURE team has commitment to provide the Education via Learning Management System including first ever mentorship program especially designed for aspiring minds to explore the opportunities in Clinical Research and in its verticals and horizontals and to make them industry ready for the future.

OBJECTIVE

To connect untapped talent in the colleges and universities to Clinical Research Industry experts of Medical, Nursing, Biotechnology, Life Sciences and IT Sector by providing training and mentorship to clinical research aspirants and supporting them in end to end process to kick-start their career. Our mission "To bridge the gap between talent available in country and competence required for Clinical Research industry by suitable training intervention and to contribute in developing robust national clinical research ecosystem".

Outcome of the Program

Through this webinar students will gain knowledge about current clinical research aspects, developments and career opportunities.

Speakers

Dr. Himanshu Madhav
(Experienced Clinical Research Experts)

Dr. Himanshu Madhav is a Medic by education and training with an experience of around 18 years in the field of Clinical Research in different capacities at different levels in the industry. Dr. Himanshu has special interest in Oncology & Endocrinology.

Priyam Shrivastava (MSRCASC Alumni)
(Experienced in Clinical Research Professional)

Priyam Shrivastava is experienced Clinical Research Professional who is carrying overall 7 years' experience in Clinical Operations, Document Management, Project Management, Clinical Program Management and currently working one of Pharma company. He is Mentor and Guide for Clinical Research Aspiring Minds who are untapped talents. So far mentored 1000+ students and support them to get into clinical research industry

Hari Krishna Chandra
Clinical Data Management Consultant,
HealthGenic Solutions, United Kingdom

Total 13 years of experience including ITs and CRO Industries. He is into Training and Consulting since long time and supporting Life Science and Pharma Student to kick start career in this domain.

Sandeep Gohil
(Experienced Clinical Data Management
Professional, Pro-Bono Mentor)

Sandeep Gohil is experienced Clinical Data Management Professional who is carrying overall 10 years' plus experience in Clinical Data Management, Analytics Pharma domain. Currently working with one of the biggest IT org as Lead-CDM.

Trisha Abhay (MSRCASC Alumni)
(Experienced Pharmacovigilance
Professional and Pro-Bono Mentor)

Trisha Abhay is experienced Pharmacovigilance/Drugs Safety Professional who is carrying about 4 years' plus experience in Drugs Safety domain in one of the biggest CRO based in Bangalore. She is into mentoring and guiding new comers and aspiring minds who are seeking career opportunity in CR, CDM or PV domains.

Organizing Committee Members

Dr. Nagarathna A

Principal,
RCASC, Bengaluru.

Mr. Prasanna Kumar S G

Associate Professor,
HOD of Chemistry / Biochemistry
RCASC, Bengaluru

Dr. Amamath Satheesh M

Assistant Professor,
RCASC, Bengaluru

Dr. Harisha S

Assistant Professor,
RCASC, Bengaluru

WHO CAN ATTEND

All Graduates and Post Graduates or Final Year of Life Sciences, Pharma,
Nursing, Medical, Dental, Physiotherapy Students

Registration Free

e - Certificate will be issued for the Participants

support clinical research aspiring minds who are truly inspired to get mentored through innovative and unique approach in clinical research.

CLINIASSURE team has commitment to provide the Education via Learning Management System including first ever mentorship program especially designed for aspiring minds to explore the opportunities in Clinical Research and in its verticals and horizontals and to make them industry ready for the future.

The work protocol they follow:

- To establish and run in India or abroad training in different departments such Clinical Research (Clinical Operations, Clinical Data Management, eTMF, Regulatory Affairs, SAS, BIOS, Medical and Scientific Writing, Pharmacovigilance, Project Management, Product Management, Medical Coding, Scribes, IT, Clinical IT) in collaboration with Colleges, Universities, Hospitals etc. for young aspiring Minds and through experienced professionals.
- To provide best in class training and mentorship sessions to make aspirants industry ready for future.
- To Conduct Practical, Physical Workshops, Teleconference, Webinars sessions on different topics on said department.
- To fill the gap between aspirants and Industry by providing individual support as and when needed by highly skilled and dedicated experts and mentors.

These are the following main areas on which they provide mentoring:

Clinical Research Operations:

Clinical Operations teams are responsible for designing, planning and physically running Phase I – IV clinical trials within the drug discovery industry. Operational jobs require individuals to be able to converse and liaise with key opinion leaders in the drug development process and thus require incumbents to have strong communication and influencing skills.

Clinical Data Management:

CDM is a critical process in clinical research, which leads to generation of high-quality, reliable, and statistically sound data from clinical trials. The ultimate goal of CDM is to ensure that conclusions drawn from research are well supported by the data. Achieving this goal protects public health and confidence in marketed therapeutics.

Principal,
M.S. Ramaiah College of Arts, Science & Commerce
MSRIT Post, MSR Nagar
Bangalore - 560 054

Regulatory Affairs:

The regulatory function in healthcare industries is vital in making safe and effective healthcare products available worldwide. The most significant responsibility of a Regulatory professional in an export company is to get a product successfully registered and approved by the Health Agency of the country like FDA for USA or EMA for Europe.

It was indeed a great opportunity for our students to listen to the talk and have interaction session with people from such a company. They highlighted on the topic "**Carrier Opportunities/Future in Clinical Research**".

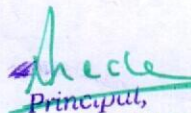

The talk was about the Carrier opportunity and future in clinical research which is highly competitive in nature. They addressed the students regarding importance of clinical research and it has been a significant increase in the number of participants willing to participate in clinical research and possibly benefit from novel drugs and cutting-edge treatments. With a pressing need and increasing demand for new therapies, medical devices, and drugs, the clinical trials market is expected to grow markedly. Furthermore, the pharmaceutical industry is growing at a robust pace with high investments in research and development sectors. Government initiatives have further motivated both small and medium players to enter the clinical research market. This has led to a huge demand for clinical research professionals adept at conducting trials and generating data on the safety and effectiveness of medicines, vaccines, dietary supplements, and medical devices.

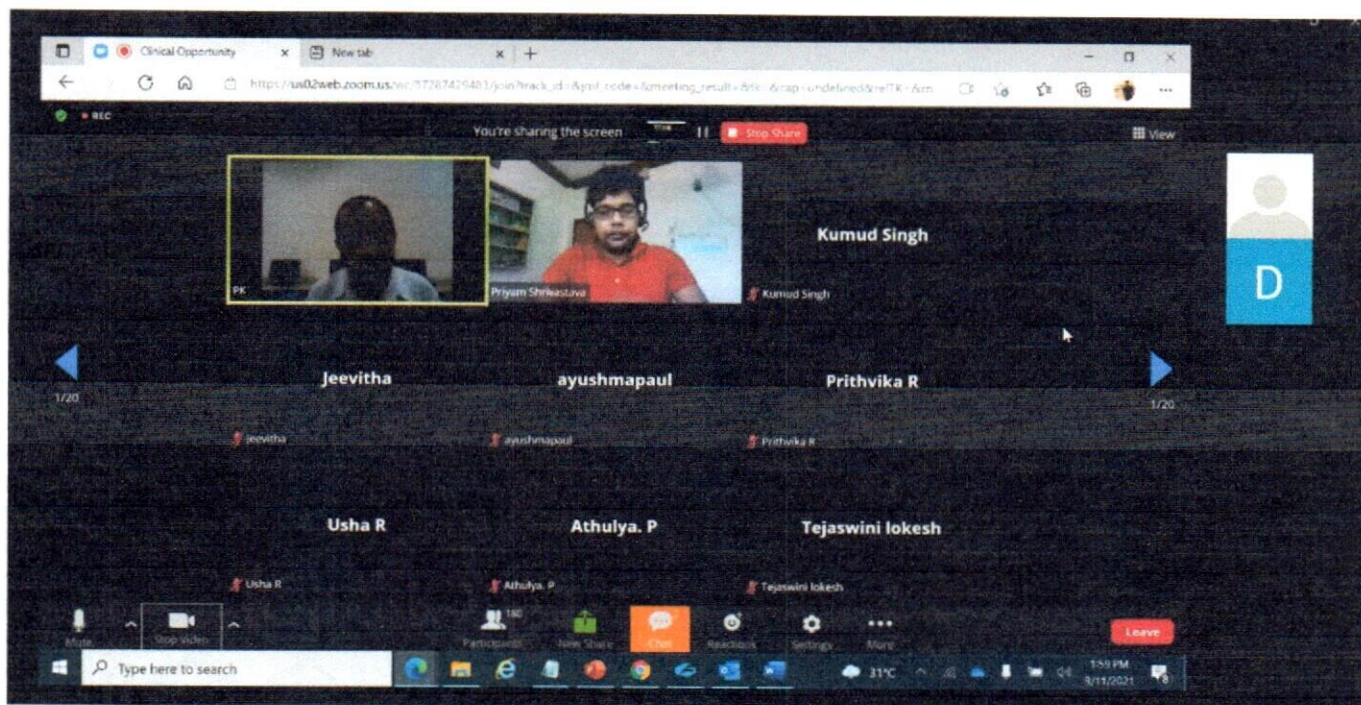

They clearly interacted with students about career choice based on constant advancements on the medical and scientific fronts and continuous progress in clinical research.

Outcome:

Through this webinar students will gain knowledge about current clinical research aspects, developments and career opportunities.
