DEPARTMENT OF HUMANITIES**REPORT ON VALUE ADDED COURSE CONDUCTED FROM****14th July, 2022 TO 10th August, 2022****Title:** Exposure**Date:** 14/07/2022 to 10/08/2022**Venue:** 306, Media Lab**Participants:** 1st, 2nd, and 3rd BA students**Resource Person:** Diwakar Singh and Ayush Singh**Number of Students:** 29**Event Co-Ordinator:** Ms. Aishwarya Konnur**Objective:** The value-added course provides an opportunity for the students to learn the basic video editing tools and basics of animation.

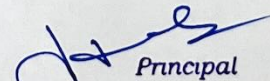

Department of Humanities organized value-added course on basic video editing course from 14th July, 2022 to 10th August, 2022. The value-added course was organized for the students of 1st, 2nd, and 3rd BA. The course was conducted for 15 hours. The students of 3rd year BA, Diwakar Singh and Ayush Singh, were the resource persons for the course.

The registration process began on 12th July, 2022. The students were instructed on the hardware requirements of a laptop with i-5 and 6th generation or above, 6-8 GB RAM and a mouse. The course began on 14th, 2022 with a brief overview on the tools and maneuvers the students were to learn. The students were given instructions on downloading the software and their installation. They were also informed on the course requirements and assignments.

The students were instructed to install three software and informed on their use. The Premiere Pro software is used for basic editing tools needed for editing videos. The After Effects is used for adding texts and graphic animation. The Encoder software is used to export the edited video to a preferred format.

The following is a list of topics covered by the resource persons:

- Introduction to Premiere Pro: To import files and create a project. To add and trim footages. To set the speed of the footage. Basic tools such as, timeline, effect controls and tools. Understanding video and audio layers in the footage. Shortcut keys of different effects. To export the project.
- Introduction to After Effects: To import files and create a project. To animate elements in the footage. To add text to the footage. Use of Ultra Key for green screen. Shortcuts for different

effects. To use wrap effect and video stabilization. To understand use of colours and colour grading. To track movement in the footage.

- Encoder: To export multiple files at a time without interrupting other files.

The Premiere Pro software is used for all common video editing tasks and for producing high-definition video. It can be used to import video, audio, and graphics to create new edited versions. The After Effects software is used for animation, visual effects, and motion picture compositing. The software has various effects used to manipulate imagery. The conclusion of the course is connected to introduce the students to basic level of video editing which can be used for short film making and editing.

Outcomes

- Students learnt to import, edit, and export the files. They learnt basic editing tools.
- Students learnt to animate the elements within the footage. They learnt to create graphics at standard level.
- To learnt to convert normal footage to cinematic footage with the help of stabilizer and colour grading.
- Students understood transitions, effects, and colour grading, etc.
