About the College

M S Ramaiah College of Arts, Science and Commerce was established in 1994 by our founder Late Dr. M S Ramaiah offering both under graduate and post graduate degrees offered by Bengaluru City University approved by AICTE, New Delhi, recognized by the Government of Karnataka. The college is also recognized by UGC under 2f and 12b of UGC Act 1956, re-accredited "A" grade by NACC and has ranked 62nd in a NIRF ranking and 1st among the best colleges of Karnataka

About the Department

The Computer Science department of MSRCASC aims to educate students in the science and practice of IT. The emphasis is on hands-on practical training of software development. The curriculum prepares students for a career in the fast lane of software development and programming. The program enables the student to be updated on the latest revolution in technology and equips the students with the required skills and knowledge to assimilate into the industry at ease. The department has achieved **12th** position in **"India Today Ranking"**

About NSS

NSS is the one of the activities of MSRCASC. The students are involved in the various services along with the mentor NSS Officer. The programme aims to inculcate social welfare in students, and to provide service to society without bias. NSS volunteers work to ensure that everyone who is needy gets help to enhance their standard of living and lead a life of dignity. In doing so, volunteers learn from people in villages how to lead a good life despite a scarcity of resources.

Department of Computer Science

Report on

Extension Activity Program in collaboration with NSS

Date: 17/03/2022
Time: 10:30 AM
Place of Activity: Singanayakanahalli Govt. Higher Primary School
Coordinator: Mrs. Harpriya, Asst. Prof, Department of CS, MSRCASC

The **objective** of the extension education is the overall development of the rural children. The Department of Computer science is extending its services in imparting technical skills in "Fundamentals of Computers and internet" to the government school students to improve their knowledge in the field of computers.

7 faculty members along with 13 student volunteers visited the school premises at 10:30am. As they were well informed of our visits, we were warmly received by the principal - Rajayya R and staff members of the school. The department faculties provided their services to the school children in 3 sessions.

The first session was by Mrs. Dhanashri Vaishali, and Mrs. Savitri Kulkarni, Asst. Prof, conducted yoga and meditation for the betterment of the school students. A few minutes of Yoga during the day can be a great way to get rid of stress that accumulates daily, in both, body and the mind. Meditation is relaxation and rejuvenates the body and mind. With this aim in mind, a special session was organized by MSRCASC for the school students. In the present day when students face stress, tension, fear, etc., yoga and meditation can help dispel these. Mrs. Vaishali motivated the students and conveyed the importance of making yoga an integral part of our daily life by extending the practice of yoga. The session concluded with an interactive session between the instructor and the students in which the queries of the students were addressed satisfactorily.

The second session was by Mrs. Srividya and Mrs. Suma, Asst. Prof, conducted awareness program on "fundamentals of computers and internet" to improve the knowledge of school students in the field of computers. Stationaries and refreshments were provided to the students of the school. In the modern world computers hold tremendous significance. The importance of computers cannot be denied in the corporate or business world. To shape the dreams of under privileged children to whom Information and Communication Technology education is a luxury, Mrs. Srividya and Mrs. Suma, Faculty member of Department of Computer Science organized a "Computer Awareness Programme" for underprivileged children studying in Government School. The session has proven to be very inspiring and informative for the students.

The third session was by Mrs. Shilpa Nayak, Asst.Prof., conducted Zumba for entertaining the students and bust their stress out during exams. Zumba is one of the best known fitness class to improve balance, agility and strength of our body. The school students enjoyed one hour of Zumba fitness class which helped students in burning their calories and reduce the stress level of exams.

At the end of the day, Mr. Lakshmipathi, Asst.Prof, distributed the prizes for the outstanding students in all the three sessions.

Learning outcomes:

- Students from class 6 to class 8 i.e., 123 students were benefitted from the extension program.
- Students got the basic idea about computer and computer peripherals.
- The presentation incorporated with supportive images and the students were shown the real hardware components of computer. Students interacted with the faculty member and clarified their doubts.
- Students were motivated positively with yoga, meditation and Zumba fitness session.
- We also encourage them to practice yoga, meditation and Zumba for their physical and mental health.
