Program Schedule

Day 1:

Date: 8/6/2021 Time: 2 PM - 3 PM

Topic: **Networks and Cyber Security**

Resource Person: **Dr. B.G.Prasanthi**

[Associate Professor, St. Joseph College, Bengaluru]

Day 2

Date: 9/6/2021 Time: 2 PM - 3 PM

Topic: **Technical Writing - Session1**

Resource Person: **Dr. Alli**

[HOD, DCA, Presidency College, Bengaluru]

Day 3:

Date: 10/6/2021 Time: 2 PM - 3 PM

Topic: **Technical Writing - Session 2**

Resource Person: **Dr. Alli**

[HOD, DCA, Presidency College, Bengaluru]

Day 4:

Date: 11/6/2021 Time: 2 PM - 3 PM

Topic: **Concepts of Computer Vision**

Resource Person:

Dr. Jayashree Vaddin

[Retd. Professor (PG Electronics) and HOD Electrical Engineering at Textile and Engineering Institute]

Day 5:

Date: 12/6/2021 Time: 2 PM - 3 PM

Topic: **Artificial Neural Networks in Image Recognition**

Resource Person:

Dr. Jayashree Vaddin

[Retd. Professor (PG Electronics) and HOD Electrical Engineering at Textile and Engineering Institute]

"20+ years of Teaching Experience. Research guide for Ph.D, MPhil, M.Tech and MCA students. BOE for Jain University and CMRIT. BOS for BU. published 26 papers. Reviewer for IEEE conference (SCI and ICCAE).

Keynote Speaker and session chair at many national and international conferences."

Dr.B.G.Prasanthi

[Associate Professor, St. Joseph College]

"20 years of Teaching Experience. Published 25 papers in national and international journals. BOE member for MCA - BCU 2020-2021. Holding membership with CSI, IEANG". Published 25 papers in national and international journals. BOE member"

Dr. Alli A

[HOD, DCA, Presidency College]

"35 years of service in Electrical, Electronics and Electronics and telecommunication (ETC) and Electrical department majority at TE, Ichalkaranji, Maharashtra. Ph.D guide of SUK for Electronics & ETC and VTU, Karnataka"

Dr. Jayashree Vaddin

[Retd. Professor (PG Electronics) and HOD Electrical Engineering at Textile and Engineering Institute]

National Faculty Development Program

An IQAC Initiative

Five Day Virtual Faculty Development Program on

"Recent Trends"

Organized by
Department of Computer Science
RCASC

Date: 08/06/2021 to 12/06/2021
Time: 2:00 PM to 3:00 PM

About The College

Ramaiah College of Arts, Science and Commerce was established in 1994 by our founder Late Dr. M. S. Ramaiah offering both under graduate and post graduate degrees offered by Bengaluru City University approved by AICTE, New Delhi, recognized by the Government of Karnataka. The college is also recognized by UGC under 2f and 12b of UGC Act 1956, re-accredited "A" grade by NACC.

About Department

The department of Computer Science was established in the year 1994.

Computer Science is a broad field which encompasses all aspects of computers, including the design and application of both hardware and software. To engage in educating in the fields of computer systems, centered on programming languages, visual information, computer organization and architecture, software engineering, systems development and application systems. The program enables the students to be updated on the latest revolution in technology and builds the students with required skills.

Patrons

- Dr. M. R. Jayaram, Chairman, GEF
- Sri M. R. Janakiram, Director, GEF
- Sri M. R. Kodandaram, Director, GEF
- Sri B. S. Ramprasad, Chief Executive, GEF (E & GS)
- Sri G. Ramachandra, Chief of Finance, GEF (E & GS)
- Dr. A. Nagarathna, Principal, RCASC

Organizing Committee

- Dr. Prathiba V. Kalburgi, HOD
- Dr. A. Malathi Palani, Assistant Professor
- Mrs. Suma C., Assistant Professor
- Mr. Lakshmi pathi V., Assistant Professor
- Mrs. Dhanashri Vaishali, Assistant Professor

Teacher Co-ordinators

- Mrs. Haripriya G. S., Assistant Professor
- Mrs. R. Srividya, Assistant Professor

Student Co-ordinators

- Shahzad Bin Shahjahan (4th Sem. BCA)
- Harikrishna Santhosh (4th Sem. BCA)

Program Objectives

- To identify and analyze relevant papers & write a research paper with appropriate references
- How to protect information and information infrastructure in cyberspace, build capabilities to prevent and respond to cyber threats
- To introduce the concepts of image processing and basic analytical methods to be used in image processing

Program Outcomes

- Identify and write different types of research papers.
- Analyze and resolve security issues in networks and computer systems to secure an IT infrastructure.
- Understand the need for image transforms and to develop any image processing application

National Faculty Development Program on "Recent Trends"

Title: Recent trends

Date: 8/6/2021 To 12/6/2021

Venue: Online

Participants: Faculty

Resource persons: Dr. B G Prasanthi, Associate Professor, St Joseph College.

Dr. Alli A, HOD, DCA, Presidency College

Dr. Jayashree Vaddin, Retd. Professor and HOD, Electrical
Engineering at Textile and Engineering Institute.

No of Participants: 147

Event Co-ordinators: Haripriya G S, R Srividya

- Objectives:**
1. To identify and analyze relevant papers & write a research paper with appropriate references.
 2. How to protect information and information infra structure in cyberspace, build capabilities to prevent and respond to cyber threats.
 3. To introduce the concepts of image processing and basic analytical methods to be used in image processing

Computer Science Department,MSRCASC has conducted a National Faculty Development Program titled "**Recent Trends**" from 8/6/2021 to 12/6/2021 with various topics from 3.00PM-4.00PM.

Day1 i.e on 8/6/2021 topic was on "Network and Cyber Security". The resource person for the day was Dr B G Prasanthi, Associate Professor, St Joseph College . After inauguration the session was handed over to the resource person.She conducted the session to share her

W www.msrmc.edu.in

knowledge with faculty about network and cyber security. Everyone knows that security is essential in the Digital Age. Regular news reports about high-profile cyberattacks and data breaches leave no doubt that strong security is a must. Network security became essential to protect the electronic network infrastructure of these vital systems. The advent of the internet changed everything, adding once-unimagined technological capabilities but also creating new vulnerabilities; and giving rise to a critical new industry — cybersecurity. Cybersecurity is “the practice of protecting systems, networks and programs from digital attacks”. Network security is “the process of taking physical and software preventative measures to protect the underlying networking infrastructure from unauthorized access, misuse, malfunction, modification, destruction, or improper disclosure, thereby creating a secure platform for computers, users and programs to perform their permitted critical functions within a secure environment.” She explained network security cloud based solutions. She also explained about encryption and decryption concepts with examples.

Day2 i.e on 9/6/2021 topic was on “Technical Writing session 1”. The resource person for the day was Dr. Alli A, HOD, DCA, Presidency College. In this session she told the meaning of technical writing and how to write a technical report and what are the rules to be followed in writing the technical paper and importance of writing a technical report. A technical report is a formal report designed to convey technical information in a clear and easily accessible format. A technical report is a sole medium through which the audience and readers of your project can understand the entire process of your research or experimentation. A technical report is considered as a product that comes with your research, like a guide for it.

Day3 i.e on 10/6/2021 topic was on “Technical Writing session 2”. The resource person for the day was Dr. Alli A, HOD, DCA, Presidency College. In this session she explained about each and every section contained in the research paper and about the order of the sections. She told how the abstract to be written, how many lines should be there in the abstract, how to select the keywords, what should be there in the introduction and conclusion. She also explained how to include the references and how the complete paper should be.

Day4 i.e on 11/6/2021 topic was on “Concepts of Computer Vision”. The resource person for the day was Dr. Jayashree Vaddin, Retd. Professor and HOD, Electrical Engineering at Textile and Engineering Institute. In this session Madam explained the meaning of Computer

M.S. Ramaiah College of Arts, Science & Commerce
MSRIT Post, MSR Nagar
Bangalore - 560 057

vision its concepts with various examples and how it can be used in various sectors and its applications. She explained Deep Learning based computer vision algorithms. **computer vision** is one of the **hottest subfields of artificial intelligence** and machine learning, given its wide variety of applications and tremendous potential.

Day5 i.e on 12/6/2021 topic was on "Artificial Neural Networks in Image Recognition". The resource person for the day was Dr. Jayashree Vaddin, Retd. Professor and HOD, Electrical Engineering at Textile and Engineering Institute. In this session she explained how to recognise images using artificial neural networks with various examples. **Image recognition** is the task of identifying images and categorizing them in one of several predefined distinct classes. So, image recognition software and apps can define what's depicted in a picture and distinguish one object from another. Neural networks are computing systems designed to recognize patterns. They consist of three types of layers: input, hidden layers, and output. The input layer receives a signal, the hidden layer processes it, and the output layer makes a decision or a forecast about the input data. Each network layer consists of interconnected nodes that do the computation. All the sessions were interactive. 5 Day FDP session was ended with valedictory function

Outcomes: To identify and write different types of research papers. Analyze and resolve security issues in networks and computer systems to secure an IT infrastructure. Understand the need for image transforms and to develop any image processing application.

Monoalphabetic Ciphers: Affine Cipher

Affine is combination of Additive and multiplicative, so that the general Affine algorithm encryption is

$$C = E(k, p) = (p * k_1 + k_2) \bmod 26$$

where k takes on a value in the range 0 to 25.

The decryption algorithm is

$$p = D(k, C) = ((C - k_2) * k_1^{-1}) \bmod 26$$

Weakness: If it is known that a given ciphertext is a Affine, then a brute-force cryptanalysis is cannot be easily performed.

Five Day FDP – Recent Trends 8th -12th June 2021

Writing a Research Report

2. Introduction—
an example

- Importance of the topic
- Justify the research.

This research focuses on sex differences in identity change processes. The identity theory perspective in sociology asserts that interaction may prompt change in inherently stable self-concepts. While research supports the general specifications of identity theory, the perspective makes no statement about whether identity processes are the same for each sex; researchers typically assume similarity. The issue remains to be systematically explored. Indeed, recent research on gender differences among science and technology students (Lin, 2002) calls for scrutiny of the assumption that females' and males' identities and behaviors respond to social relationships in the same way. The present research addresses this gap in the identity theory literature.
