CLOSE CIRCUIT TELEVISION (CCTV) FACILITIES

Collegecampuses pose many unique challenges when it comes to security. Colleges have many buildings and sections, each with their own security needs. CCTV Campus security cameras serve as a visual deterrent to crime such as eve teasing, bullying, ragging, vandalism of property, thefts of belongings of the staff and students and also in Science Labs which have expensive equipment and materials. Schools and universities at every level can be the target of all kinds of unwanted or unauthorised visitors. Students of every age are used to being in crowds of people they don't know on a campus. This leaves them vulnerable to crime. CCTV coverage is an invaluable tool allowing the students and staff, both male and female to walk and stay under the watchful eyes of the campus security systems. It also ensures restriction of entry of people who are unauthorized, prevents misbehavior of staff and students, offer protection to all the students and staff.

CCTV Cameras are installed in all the corridors, class rooms, library, Science labs, Computerlabs, parking lots in the colleges to ensure that all the entry and exit points are covered and all areas have maximum security coverage. Monitoring hallways and corridors is crucial to maintaining proper security. If any event occurs, having the ability to tap into the security camera system remotely will aid law enforcement. All the cameras are connected to monitors which are in the Computer lab and Chemistry staff room to ensure monitoring during working hours.

Cameras are installed in classrooms so that any misbehavior of the students are looked into immediately and also to check any malpractices and copying during the university-level examinations. This has ensured minimum incidents of malpractice during the examinations. The parking lots are also having security coverage to prevent the entry and exit of people and also to check any thefts of vehicles parked in the parking lots.

All points, areas and departments, corridors are covered so that that staff and students live and work and study in a safe and secure environment. When it comes to safety and security surveillance cameras are an absolute necessary for the security of women and girls on the campus.

All these facilities have been provided in the college by the management as per the Guidelines issued by the University Grants Commission (UGC) and the parent university. Students and staff are encouraged to inform any such incidents so that the footage is checked and action is taken promptly. CCTV plays an important role to keep an eye on what's going in and around the college.

60 CCTV have been installed in and around the college building. The footage recorded by the CCTV is helpful in times when required to check out in certain cases such as eve teasing, ragging, thefts, sexual harassment, gross misbehavior by the students, vandalism, and so on. Therefore, all the stakeholders who work in the college live and work productively in a safe and secure environment. This is an enormous responsibility for the management to ensure a hassle-free environment for all.

The College makes it a point to respect the privacy of the Faculty, staff and students, while installing surveillance equipment in the college. Periodic checking of the footage recorded is checked by the staff as a part of the routine standard verification procedure to find any loopholes and any lapses in the recording process so that loopholes can be plugged and lapses rectified.

HOSTEL FACILITIES FOR BOYS AND GIRLS

The Ramaiah College of Arts, Science and Commerce attracts a large number of students from outside Bengaluru, from Karnataka and from all parts of India and abroad. This is due to the brand name that the Ramaiah group of Institutions have in the education sector. For the comfortable stay during the course of their three-year academic years in the college, the college provides for separate hostels for both boys and girls in the campus and adjacent to the campus. The hostels are managed by the wardens who are in charge of each hostel. The hostels have rooms on a single-occupancy and shared accommodation with attached washrooms, facilities like common lounge, Cable television, WIFI Facility, comfortable chairs in the lounge rooms, beds, tables and chairs and wardrobe facilities and lockers to keep the valuables in. Nearly 150 students are benefited by this facility. The Students are provided with good breakfast, lunch and dinner with evening snacks and tea/coffee. The hostels are spacious, safe and secure and cordial atmosphere. Medical facilities are available on the campus due to presence of a super-speciality hospital which offers the best treatment for all the hostel inmates at a minute notice. So parents and guardians need not worry about the health of their children. All the hostels have security guards and CCTV cameras round the clock to monitor the movement of students, visitors and other personnel involved in the maintenance of the hostel and its upkeep. Laundry and housekeeping facilities are also available to the students in the hostels.

The College has four ladies and seven boys' hostels for the benefit of the students from Karnataka and outside. In case of any emergencies the faculty and the staff are also available to attend to the students. Hostels were typically hostels as one can think of. The hostel environment is full of educational ambience. Students from all over India and abroad stay together. Hostels are equipped with warden and mess and with tight security. Availability of hostels are sufficient, from college administration and also from private administrators. The rules and regulations regarding the use of the hostels are given to the students by the wardens and students are required to adhere to them strictly. Using mess facilities is mandatory for the girl students as a security measure so that they do not go out to have their meals elsewhere. All the movements of visitors into and from the hostels are also recorded for the purpose of ensuring the tight security of the inmates. The allotment of the rooms are made on a first come, first served basis. Indoor and outdoor game facilities and gym facilities are also provided in the hostels for the use of the students. Of course consumption of alcoholic beverages, drugs, smoking of cigarettes etc. are strictly forbidden in the hostel premises. Any such activity is discovered by the authorities in charge of the hostels are dealt with immediately and results in expulsion of the students from the hostels. All in all the hostels provided by the college and the Gokula Education Foundation offers a safe, secure, healthy and divergent environment for all the students coming from far off places to have a comfortable stay during the course of their education in the college.

Hostels in Ramaiah is a melting pot of students and a microcosm of societies from India and Abroad and it gives them an opportunity to know and learn about other cultures and civilizations from their fellow hostel inmates and also broaden their horizons and world views with the exposure to the outside world. The admission procedures and rules relating to the expulsion of the students from the hostels rest with the management.

CRECHE FACILITY

Today there are increasing number of women who work in different sectors of the economy to supplement their incomes and give a better life to their families. Child care may not be available at home. So they have to depend upon day care/creche facilities to leave their young ones in safe and secure environment so that they can go and work in peace, knowing that their children are well looked after. A crèche is a place where small children can be left to be looked after while their parents are working or are studying. It is a day care centre where the children can be left in the care of persons dedicated to the task of looking after babies and young children.

The Ramaiah College of Arts, Science and Commerce is part of the Ramaiah Group of Institutions under the Gokula Education Foundation. To serve the lady employees especially the young working mothers who work tirelessly for the institutions there is a day care/creche facilities in the campus near the Ramaiah Medical College. The Medical College students and staff manage this day care/creche facility. It gives them the opportunity to interact with small children and learn how to take care of them and manage them. This facility is extended to all the employees who come under the Ramaiah Group of Institutions. Small babies to children of the employees benefit by this facility during working hours. The children are given the best facilities for a comfortable, safe and secure stay in the centre.

There are teachers who impart the pre-school education and Montessori teaching to the kids. There are ample toys and playthings and learning materials for the children to be engaged in the whole day.

Children are also provided with beds and other facilities for their comfortable afternoon nap. Doctors and medical facilities are available for any emergency for the children on the campus. This makes the parents and caregivers work on the campus in a stress-less and tension-free environment and give their best to the institutions in which they work. The parents, too, work in close proximity so that in any event of emergency they are easily available and can attend to the children and their wards immediately. The Creche/day care facility is located in such a central place that the parents can visit their kids in their spare time to check on them from time to time. This ensures that the staff are alert to the needs and demands of the kids under their care and the parents are continuously able to monitor the safety and the upkeep of their wards in the Creche. This is the greatest advantage of having the crèche in the campus. One great initiative made by the management for the benefit of the employees working in the various institutions of the Gokula Education Foundation. Employees need not worry over the care and safety of their young children while they are at work as the institution itself offers the day care/creche facility on the campus itself.

PSYCHOLOGICAL COUNSELING BY THE PROCTORS AND THE PSYCHOLOGY DEPARTMENT

The Ramaiah College of Arts, Science and Commerce attracts students not only from Bengaluru but also from Karnataka, different parts of India and abroad. They stay in hostels, paying guest accommodations and in rented flats and houses shared by the students themselves. They stay away from their parents and homes for extended periods and many of them have stayed from their parents and families the first time of their lives. Hence many of them both local and non-local students suffer from loss of comfort of their families, homes and familiar habitats. Homesickness, depression, anxiety and fear of the unknown are the usual issues faced by the students. Also they have entered into a degree college which offers so much freedom and exposure than the School and Plus-One Colleges. So they face much more issues during the course of their three-year stay in the college, both academic and personal.

The students are placed under a Proctor (20 to 1) who stay with the proctor for the entire duration of their academic life in the college for the three-year degree programme. The proctors are the first persons for whom the students go to for any of their problems, academic and personal. These proctors handle problems and issues relating to attendance, class performance in tests and examinations, family problems, stress and anger management, behaviour /discipline related issues which are usually sorted out by the proctors and the Heads of Departments.

There may be many Psychological issues and problems which cannot be handled by the Proctors due to the lack of knowledge, skills and wherewithal to deal with such problems. The Psychology Department faculty step into the breach. They lend their expertise, knowledge and skills in handling the psychological problems faced by the students.

The principal problems faced by the students and handled by the Psychology faculty are related to alcohol /substance abuse or addiction, stress and anxiety relating to academic and family issues. Inter-personal relationships issues with friends, peer groups, friends of other genders, gender related issues, stress and anger management issues are some of the problems tackled by the counselors. Non-Karnataka students have problems of adjustment especially those who stay in hostels and PGs. They have problems of language, food, understanding the city and its layouts and ethos. Sometimes even the parents of such students may even be called for such counseling sessions by the proctors and the Psychology Faculty during the Parent-Teacher Meetings. Simple problems and issues are sorted out by the proctors themselves who are in close touch with the students and parents. Complicated psychological problems are referred to the Psychology Department and in extreme cases to the Psychology Department of the Ramaiah Medical College for their expertise, knowledge and skills in handling such cases.

A Student Prakruthi (name changed) of Ramaiah college of Arts, Science and Commerce, a native of Assam had attended counseling session with the problems of sadness and sleep disturbances. After a rapport was established she slowly opened up with her problems. She shared her childhood problems mainly Identity crisis within her family at Assam. When the problems escalated she was taken to NIMHANS and she was diagnosed with Gender Dysphoria. Due to the same problem she has been facing many embarrassing situations which made her to try to give up her life (Suicidal ideations) which she attempted many times. She is currently fighting for her Identity in the society for which she is legally fighting in Assam court and also in High court. Case is now under progress.

She is in touch with the counselor for her mood swings and other anger related problems. Presently she is trying to be strong and is working to change people's mind about LGBT+ community and to give them their rights in the society.

Students being counseled by their Proctors
