# DEPARTMENT OF COMPUTER SCIENCE Invites you HIGHER EDUCATION AND JOB OPPORTUNITIES IN IT SECTOR

Date: 23 May, 2022

Place: Seminar Hall

Time: 11:30am

## Resource Person

Mr. Prasad Shetty  
Assistant Manager  
AECC India Pvt Ltd.  
Bangalore.

## About Session

To boost their employability and be a valuable contributor to the economy. Even if the value attached to a university degree is beneficial to those who obtain it, companies can help change the narrative by putting less weight on "higher education" as a measure of intellectual competence and job potential, and instead, approach hiring with more open-mindedness

## Outcome

- How we learn must keep pace with these new technologies.
- We need learning to be cross-disciplinary, personalized and focused on human skills.
- Together, government and the private sector can future-fit education

## About the College

M. S. Ramalah College of Arts, Science and Commerce was established in 1994 by our founder Late Dr. M. S. Ramalah offering both under graduate and post graduate degrees offered by Bengaluru Central University approved by AICTE, New Delhi, recognized by the Government of Karnataka. The college is also recognized by UGC under 2f and 12b of UGC Act 1956, re-accredited "A" grade by NAAC.

## DEPARTMENT OF COMPUTER SCIENCE

### Report on

### Career Guidance-Higher Education and Job Opportunities in IT Sector

**Date:** 23/05/2022

**Time:** 11:30 AM

**Venue:** Seminar Hall

**Resource Person:** Mr. Prasad Shetty,  
Assistant Manager, AECC Pvt Ltd, Bangalore.

**Participants:** 72 students (3<sup>rd</sup> year BCA)

**Objective of the program:** To boost their employability and be a valuable contributor to the economy. Even if the value attached to a university degree is beneficial to those who obtain it, companies can help change the narrative by putting less weight on "higher education" as a measure of intellectual competence and job potential, and instead, approach hiring with more open-mindedness

Your choice of career might be a key reason in deciding whether to go into higher education and what course to take. Some careers, including medicine, dentistry, chartered engineering and architecture require you to have a degree. Other professions, like law or speech therapy, require you to have an additional postgraduate qualification on top of your degree before you can practice. The session was represented by Mr. Prasad Shetty, Assistant Manager, AECC Pvt Ltd, Bangalore.

You may just want to study in a subject that really interests you or to broaden your knowledge in a certain area. However, studying a higher education qualification can also help you to develop skills and qualities that employers value, such as problem-solving and communication skills.

Principal,  
M.S. Ramaiah College of Arts, Science & Commerce  
MSRIT Post, MSR Nagar  
Bangalore - 560 054

It can be helpful to have a career path in mind before choosing a course to study. To land a job in the field of information technology is a dream come true for thousands of Indian students. There are various diploma courses and full-time undergraduate courses with post-graduate counterparts as well. Clearly, the country has become the IT hub of the world, producing a massive workforce that is not just relevantly skilled but ready to be employed in the leading organizations across the globe

**Outcomes:**

- Automation and the gig economy are radically changing how we work.
- How we learn must keep pace with these new technologies.
- We need learning to be cross-disciplinary, personalised and focused on human skills.
- Together, government and the private sector can future-fit education

### Report on

### Career Guidance on Resume Building and Interview Tips

**Date:** 14/12/2021

**Time:** 12:30 PM

**Venue:** Seminar Hall

**Resource Person:** Mr Muthanna M U

Tax analyst EY

EY and Unisys, Bangalore

**Participants:** 45 students (3<sup>rd</sup> year BCA)

**Objective of the program:** You never get a second chance to make a first impression. The impression you give a potential employer via your resume or an interview is usually your only opportunity to communicate that you're the right person for the job - so make it count.

It is often difficult to "sell" yourself and respond to "Tell me something about yourself." A great way to respond is by using transferable skills. Unlike job-related skills (e.g., used a cash register), these skills can be applied in every occupation. Below is a list of transferable skills. Check off 5-8 words that apply to your school activities, volunteer work, and/or current or previous jobs. The session was represented by **Mr Muthanna M U**, Tax analyst EY, EY and Unisys, Bangalore.

**COMMON INTERVIEW QUESTIONS:** The following are sample questions that are typically asked of interviewees. Some questions are designed to get specific details while other questions are designed to get a feel for your personality and character. It is a great idea to decide how you would answer these questions beforehand.

M S Ramaiah Nagar  
MSRIT Post  
Bangalore 560 054

T +91 80 2360 0966/8597  
+91 80 2360 6905  
F +91 80 2360 6213

E principal.msrmasc@gmail.com  
W www.msrmasc.edu.in

**Questions You Can Ask During the Interview:** At the end of a job interview, the interviewer may ask, "Do you have any questions?" The interviewer will expect you to have intelligent, well-thought-out questions that indicate you have some knowledge of the job for which you are applying. Also, it reveals how well you listened to the interviewer. Do your research and ask appropriate questions? Here are some examples. Would you describe the duties I would be performing? What would be the time frame for filling this position? If hired, who will be my supervisor? How would I be trained or introduced to the job? With whom would I be working with and what are their duties? How would my performance be evaluated? Who would evaluate me and when? Can someone in this position be promoted? If so, to what position? Of your most successful employees, what characteristics do they possess that helped them to be successful? What is the customer service philosophy of your company? What is the best part about working here?

#### INTERVIEWER CHECKLIST

1. Appearance – overall grooming, dress, posture, and appropriateness
2. Sociability – overall warmth and friendliness
3. Handshake – firm and confident
4. Eye contact – ability to look directly at you during interview
5. Composure – overall confidence in responding to questions
6. Conversation – ability to speak clearly, using proper language, grammar, and tone
7. Responses – the questions were answered honestly, seriously, and completely, ability to "sell" him/herself with appropriate responses
8. Courtesy – ability to show respect and interest
9. Job application – neatly written and complete
10. Resume – clear, concise, positive, typed, technically correct
11. Interviewer comments:

**Outcomes:** To secure a challenging position in a reputable organization to expand my learnings, knowledge, and skills.

Invites you to an  
 Career Guidance Seminar  
 on  
**Resume building and interview Tips**

### About the College

**Department of Computer Science****Report On****Study Abroad Opportunities and Visa Guidance****Title:** Study abroad Opportunities and Visa Guidance**Date:** 7/6/2021**Venue:** Online**Participants:** BCA Students .**Resource persons:** Ms Sashirekha

Destination Manager -IDP Education Ltd Bangalore

**No of students:**60**Event Co-ordinators:** Dr Prathiba V Kalburgi**Objectives:**

1. To understand study opportunities and visa procedures.
2. Different University in abroad.
3. When visa can be applied.

Computer Science Department, RCASC has conducted a webinar on "Study abroad Opportunities and Visa Guidance" dated on 7/6/2021 from 2.00pm. The resource person for the day was Ms Sashirekha Destination Manager -IDP Education Ltd Bangalore.

India is one of the biggest sources of international students to foreign countries and is a major contributor to the economy for these countries. According to the Indian Students Mobility report by the World Education Service (WES), the number of Indian enrolments abroad is the second highest after China. However, data shows that a majority of these Indian applicants are only from the mega cities like Delhi and Mumbai whereas only a handful of students are from the smaller and emerging towns of India. The reason behind this may be due to lack of access to information and proper guidance. Considering the lack of awareness among small-town students, I have written his article to help them navigate their way to a prestigious foreign university. This would mean increased career prospects and a larger contribution to the development of our society on the whole.

**Outcomes:** Students learnt Planning your study abroad application process, Importance of University Ranking, Admission Requirements and Intakes, Fee and Scholarships, Post Study Work Options, Student visa.

## Webinar on Study Abroad- 7/6/2021

**Zoom Meeting**

Participants: 135

### Why should you study abroad?

- Quality Education**: Three most important factors that students consider for deciding the quality of the education are: the educational institution and its reputation; the program, its content quality; and its professors: the value it adds.
- Enhance the value of your degree**: Globally recognized degree will tend to make more job opportunities for you. The worldwide financial sectors, business giants, MNC's want to work with such candidates who have a high valued degree plus the global experience.
- Employment Ready!**: On completion of your degree, you are legally authorized to work in some countries (Australia, USA, Canada etc) in your related field for about a year or more.
- Research options**: The students interested in research degree will have an edge as far as technology and research projects available all over the world.
- Academic Flexibility**: The education system abroad is a lot different from India, it offers flexibility in terms choice of subject from a variety of topics.

5

**Zoom Meeting**

Participants: 133

### Recommended preparation

Time - 3 to 10 months in advance of the intake

- Shortlist Universities
- Take admission tests
- Prepare application file
- Receive university assessment
- Offer acceptance & Student visa formalities

- Art of Mind Control workshop which was held on 3<sup>rd</sup> December 2022 in Hare Krishna Hill, Rajajinagar, ISKCON Bengaluru 560010.
- The Session started at 5:30pm to 7:00pm and on-spot registration was also available and students who had pass which worth 500 rupees and this was been given to students as a complimentary for the encouragement. Students had to report at 4:30pm and had to give attendance via QR code and also contained set of questionnaire.
- The Speaker for the event was **Vallabha Chaitanya Das Prabhu** who worked in many MNC companies and Alumni student of M S Ramaiah College.
- This program was dedicated to **A C Bhaktivedanta Swami** who is the founder of **International Society of Krishna Consciousness** which is also known as **ISKCON**

- The strength of audience was more than 200 members and 80% students were from M S Ramaiah College
- Speaker had a great one on one interaction with students, which made audience more interactive.
- He discussed about the needs and importance of mind, intelligence and need to control
- He discussed the types and ways to control mind and explained the importance and its circumstances when it's not controlled.

**RAMAIAH**  
College of Arts, Science &  
Commerce

**M S Ramalah College of Arts, Science and Commerce**  
Be accredited by UGC, Government Affiliated to Bangalore Central University,  
Approved by Government of Karnataka, Approved by AICTE, New Delhi,  
Not approved by UGC, under 21 & 2B of UGC, act 1956.

- One among the method was on basis of Spirituality method where we were thought about “**Hare Krishna Maha Mantra**”
- Everyone was pleased and had an energy vibe after chanting “**Hare Krishna Maha Mantra**” 12 times.
- Later another QR code was displayed on screen for registering for an event where after they would become **FOLK** member i.e youth volunteer for ISKCON. The register fee for the event was 200 rupees and they had their choice of Sunday to attend the event.
- Later we and our friends went to Temple to grace the blessings of the God.
- Nearby there were book stalls having all the languages books which contained **Sri Mahabharata, Sri Bhagavad Gita and Life of Krishna** books for kids and many more.
- Later there were paid prasadam counters which had mouth watering prasadam and next we headed towards the exit gate of the temple and received free prasadam for all.
- We enjoyed the pleasant climate and took wonderful pictures with our friends and made memories.

## About The College

Ramaiah College of Arts, Science and Commerce was established in 1994 by our founder Late Dr. M S Ramaiah offering both under graduate and post graduate degrees offered by Bengaluru Central University approved by AICTE, New Delhi, recognized by the Government of Karnataka. The college is also recognized by UGC under 2f and 12b of UGC Act 1956, re-accredited "A" grade by NAAC and has ranked 55<sup>th</sup> in the NIRF ranking and 1st among the best colleges of Karnataka

## About The Department

The Computer Science Department of RCASC aims to educate students in the science and practice of IT. The emphasis is on hands on practical training of software development.. The program enables the student to be updated on the latest revolution on technology and equips the students with the required skills and knowledge to assimilate into the industry at ease.

## Objective & Outcome of the Program

**Objective:** To build a career and demonstrate the knowledge of common AI and machine learning workloads—and what Azure services can solve for them.

**Outcome:** Prepare data for use by an Azure Machine Learning Studio experiment • Train a machine learning model in Azure • Deploy a model • Prepare data for use by an Azure Machine Learning Workbench experiment • Train a machine learning model in Azure Machine Learning Workbench • Deploy a model trained in Azure Machine Learning Workbench to make predictions

## Department of Computer science

### Value added course

**Title: Microsoft certified Azure AI Fundamentals**

**Date: 14/06/2022 to 19/06/2022**

**Venue: Online**

**Participants: III Year BCA students**

**Resource Person: Atul Sharma, M/s ATS InfoTech Pvt Ltd Microsoft-AEP(Authorized Education Partner)**

**No of Students: 24**

**Event Co-ordinator: Suma C**

**Objective: To build a career and demonstrate the knowledge of common AI and machine learning workloads—and what Azure services can solve for them.**

On the first day the resource person gave insight about learning azure AI. The course is designed to give you a comprehensive understanding of the Azure AI services and tools that Microsoft provides for building intelligent applications. The course covers the fundamentals of AI, including machine learning, deep learning, and natural language processing. Will learn how to use Azure AI services to build intelligent solutions that can process, analyze, and interpret large amounts of data to help you make informed business decisions.

He said that mastering the basics in AI can help students jump-start their career and to get ready to dive deeper into the other technical opportunities Azure offers. Artificial intelligence (AI) opens doors into possibilities that might have seemed like science fiction only yesterday. Using AI, students can build solutions, improve apps and advance technology in many fields, including healthcare, financial management, and environmental protection, to name just a few. They will also gain hands-on experience with Azure AI tools such as Azure Machine Learning, Cognitive Services, and Bot Service. You'll learn how to create and deploy machine learning models, build chatbots, and use pre-built APIs for vision, speech, and language processing. He said the purpose of The AI-900: Microsoft Azure AI Fundamentals exam is designed for candidates who want to demonstrate their foundational knowledge of artificial intelligence and its applications. The exam measures the following skills:

Understanding of AI workloads and considerations: This module provides an overview of AI and its applications, including machine learning, deep learning, and natural language processing  
Ability to describe fundamental principles of machine learning on Azure.

Understanding of features of computer vision workloads on Azure It covers the basics of Azure AI services, including Azure Cognitive Services, Azure Machine Learning, and Azure Bot Service  
Ability to describe features of Natural Language Processing (NLP) workloads on Azure

Understanding of features of conversational AI workloads on Azure.

The exam consists of 40-60 multiple-choice questions and will have 60 minutes to complete it.

The resource person said that The Microsoft Certified: Azure AI Fundamentals certification could be a great fit for students if they would like to: Prove that they have the AI skills it takes to build a better world. Getting Azure AI Fundamentals certification can supply the foundation they need to build their career and demonstrate knowledge of common AI and machine learning workloads—and what Azure services can solve for them. It also Validates the foundational knowledge of machine learning and AI concepts, along with related Azure services. The students learnt the Fundamental concepts for Artificial Intelligence. They also gained knowledge about the concepts on AI workloads, fundamental principles of machine learning on Azure, features of computer vision workloads on Azure. They had insight on Natural Language Processing (NLP), features of conversational AI workloads on Azure. They were given hands on lab to visualize things like how to use Azure Machine Learning to train and deploy models, as well as manage the ML lifecycle (MLOps). The department conducted entry level test which was MCQ and in that test 24 students qualified for attending the course. Microsoft conducted test at the end of the course in which 8 had qualified and certificates were issued to them.

**Couse Outcomes**

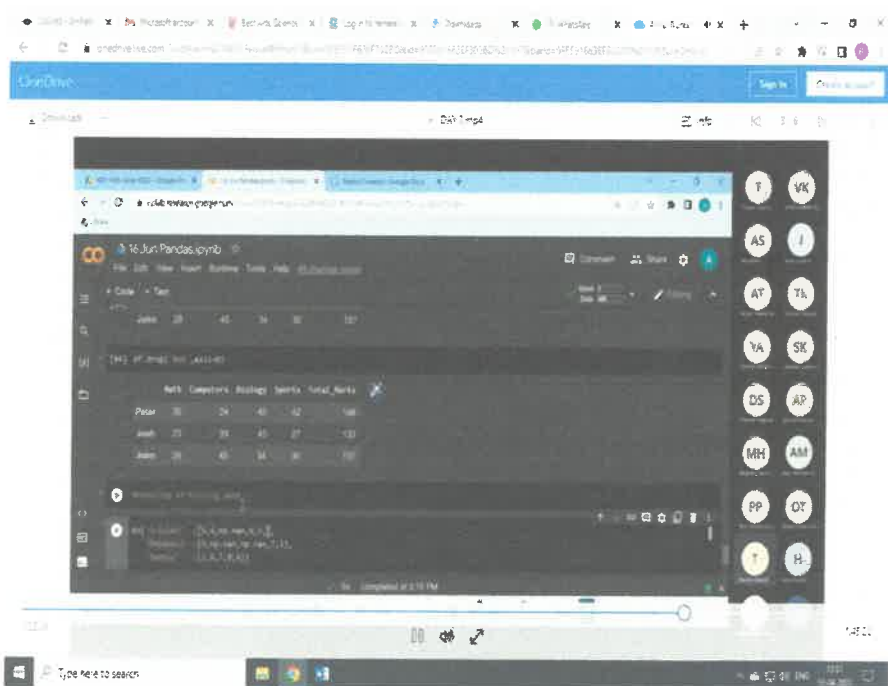

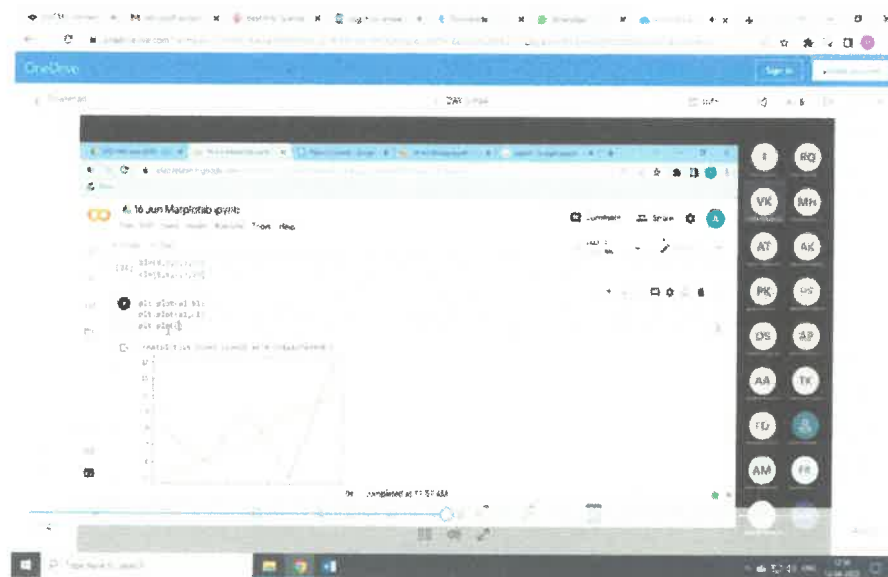

- Prepare data for use by an Azure Machine Learning Studio experiment
- Train a machine learning model in Azure Machine Learning Studio
- Deploy a model trained in Azure Machine Learning Studio
- Prepare data for use by an Azure Machine Learning Workbench experiment
- Train a machine learning model in Azure Machine Learning Workbench
- Deploy a model trained in Azure Machine Learning Workbench to make predictions

## Department: BCA

### Name of the Program: Microsoft certified Azure AI Fundamentals

Year: 2022-23

### Assessment procedure for value added course: Microsoft certified Azure AI Fundamentals

**Objective:** To build a career and demonstrate the knowledge of common AI and machine learning workloads—and what Azure services can solve for them.

The Department of computer science had organized value added course from 14/06/2022 to 19/06/2022 for BCA students. Total of 78 students had participated in this course. The course duration was 30 hours.

The certificates were given to all the participants after successfully completion of the course by assessing their knowledge gained during this course. The gained knowledge was assessed with the help of MCQ's.

#### Assessment procedure:

Criteria	Marks
MCQ	20
Attendance	10
Practicals	10
Total	40

**Outcome:** build solutions, improve apps and advance technology in many fields, including healthcare, financial management, and environmental protection

1. The principle that describes raising awareness of the limitations of responsible AI-based solutions is called: \_\_\_\_\_.

- a) Privacy and security
- b) Reliability and safety
- c) Transparency
- d) Accountability

2. You plan to use machine learning to predict how ill dogs become based on their age and body fat percentage.

The model should include \_\_\_\_\_.

- a) two features and one label
- b) two labels and one feature
- c) three labels
- d) three features

3. What are two capabilities of the Azure Computer Vision service?

- a) Class prediction
- b) Model training
- c) Model authoring
- d). Data visualization
- f) Data exploration

4. To train a machine learning model to detect company logos in images.

- a) Azure Custom Vision image classification
- Bb) Azure Custom Vision object detection
- c) Azure Face Service
- d). Language Understanding Intelligent Service (LUIS)

5. To train a machine learning model to detect company logos in images.

- a) Azure Custom Vision image classification
- b) Azure Custom Vision object detection
- c) Azure Face Serviced
- d). Language Understanding Intelligent Service (LUIS)

6. To identify users based on their voice.

Which Azure Speech service feature should you use?

- a) Conversation transcription

  
Principal,  
M.S. Ramaiah College of Arts, Science & Commerce  
MSRIT Post, MSR Nagar  
Bangalore - 560 054

- b) Pronunciation assessment
- c) Language Understanding Intelligent Service (LUIS)
- d) Speaker recognition

7. Which type of artificial intelligence workload uses sensors to proactively alert users about potential equipment mechanical failures?

- a) Anomaly detection
- b) Computer vision
- c) Natural language processing
- d) Conversational AI

8. What is a use case for classification?

- a) predicting how many cups of coffee a person will drink based on how many hours the person slept the previous night.
- b) analyzing the contents of images and grouping images that have similar colors
- c) predicting whether someone uses a bicycle to travel to work based on the distance from home to work
- d) predicting how many minutes it will take someone to run a race based on past race time

9. Which AI service can you use to interpret the meaning of a user input such as "Call me back later?"

- a) Translator Text
- b) Speech
- c) Text Analytics
- d) Language Understanding (LUIS)

10. You are designing an AI system that empowers everyone, including people who have hearing, visual, and other impairments. This is an example of which Microsoft guiding principle for responsible AI?

- a) fairness
- b) inclusiveness
- c) reliability and safety
- d) accountability

11. Which two components can you drag onto a canvas in Azure Machine Learning designer? Each correct answer presents a complete solution. NOTE: Each correct selection is worth one point.

- a) dataset
- b) compute
- c) pipeline
- d) module

12. You have a dataset that contains information about taxi journeys that occurred during a given period. You need to train a model to predict the fare of a taxi journey. What should you use as a feature?

- a) the number of taxi journeys in the dataset
- b) the trip distance of individual taxi journeys
- c) the fare of individual taxi journeys

  
Principal,  
M.S. Ramaiah College of Arts, Science & Commerce  
MSRIT Post, MSR Nagar  
Bangalore - 560 054

- d) the trip ID of individual taxi journeys
13. Which AI service should you use to create a bot from a frequently asked questions (FAQ) document?
- a) Speech
  - b) Language Understanding (LUIS)
  - c) Text Analytics
  - d) QnA Maker
14. You have a frequently asked questions (FAQ) PDF file. You need to create a conversational support system based on the FAQ. Which service should you use?
- a) QnA Maker
  - b) Text Analytics
  - c) Computer Vision
  - d) Language Understanding (LUIS)
15. Which metric can you use to evaluate a classification model?
- a) root mean squared error (RMSE)
  - b) mean absolute error (MAE)
  - c) coefficient of determination (R2)
  - d) true positive rate
16. Which two of these sources can you translate from one language into another?
- a) Image
  - b) Handwriting
  - c) Text
  - d) Video
  - e) Speech
17. What are two tasks that can be performed by using computer vision?
- a) Predict stock prices.
  - b) Detect brands in an image.
  - c) Detect the color scheme in an image
  - d) Translate text between languages.
  - e) Extract key phrases.
18. What are the four types of entities that you can create during the authoring of the LUIS Application?
- A. Machine-Learned
  - B. List
  - C. FAQ document
  - D. RegEx
  - E. Chit-chat
  - F. Pattern.any
  - G. Alternative phrasing
19. What are the main features and capabilities of Azure Machine Learning?

  
Principal,  
M.S. Ramiah College of Arts, Science & Commerce  
MSRIT Post, MSR Nagar  
Bangalore - 560 054

- A. Anomaly Detection
- B. Pipelines
- C. Object Detection
- D. Automated machine learning
- E. Azure Machine Learning designer
- F. Text Analytics
- G. Data and compute management

20. When you are creating a Clustering Model, what common ML algorithm are you using?

- A. Multiclass Logistic Regression
- B. K-means
- C. Linear Regression
- D. Two-Class Neural Network
- E. Decision Forest Regression
