Report on
Extension activity
on

“AWARENESS ON TUBERCULOSIS AND GENERAL HEALTH AND
HYGIENE”

Objectives: To create awareness about the microorganisms, infection and control as a health and hygiene. An Awareness on Tuberculosis as a pandemic infection.

Venue: Sri Yogi Narayana Mutt in Kaiwara, 60 kms from Bengaluru, Karnataka

Date of conduction: 17/ 09/ 2022

No. of Participants:- Awareness among the people in the streets of Kaiwara residential surroundings and Market area.

The Department of Microbiology conducted an extension activity in association with NCC & NSS students on 17th September 2022. The event was to educate the general public about the pandemic infections like Tuberculosis, Polio, Hepatitis, etc. The Under graduate students and few Post graduate students of Microbiology with the NSS students were involved in preparation of posters and placards to help the people in understanding the effect of microorganisms and their influence on Human Welfare.

The event was conducted at Sri Yogi Narayana Mutt in Kaiwara, 60 kms from Bengaluru, Karnataka, home town of our beloved Dr. M.R. Ramaiah, to reach the common people to share and bring awareness among the people about infections and their control mechanism. About 40 participants including students and staffs took part in the awareness

programme by displaying the posters and placards to inform the people residing at Kaiwara about the importance of health and hygiene.

As the occasion of "World Tuberculosis Day"- March 24, this extension activity helped in creating awareness on Tuberculosis among the village people. The main emphasis was on the hygiene and intake of healthy food to develop a better immunity and resistance power.

Students and staffs explained the public with the placards how important it is to maintain cleanliness in public, personal and private.

After the lunch at Kaiwara temple students and staffs visited the Physical and mentally challenged students managed by M.S. Ramaiah hospital doctors at Kaiwara campus. The school children were also informed about the awareness of our environment, awareness of tuberculosis, cleanliness to be followed indoors and their surroundings. They were also taught how importance our environment is, through the sign language as some of the students were deaf and dumb. Their response was very positive. Students and staffs of MSRCASC donated funds, distributed juice to all the teachers and students of the school. School children sang and danced for filmy music, it was a very memorable cherishing moments, unforgettable and respect for the faculties handling those challenged children who are future of India coming from distance villages of Kaiwara. The program was ended with vote of thanks to the School teachers and children, honouring our national anthem. Reporting back to Bengaluru MSRCASC campus was by 5:30pm.

Outcome of the Activity:

TB prevention program aims to eliminate TB as a public health issue by coordinating and focusing disease-control activities on three main goals: Rendering all individuals with active TB disease as non-infectious. Ensuring all individuals with latent TB infection remain non-infectious.
