REPORT - POSTER PRESENTATION

Date: 04th September 2024

Timings: 2:00 PM to 4:30 PM

Venue: 5th Level

Participants: BCA first year students

No of Students: 153

Objective: "To introduce foundational concepts in computer science while engaging and inspiring students to develop their thinking skills for creating a poster on Information Technology."

Event Overview

The Computer Science Department, coordinated by Mrs. Haripriya GS, organized a dynamic poster presentation event for first-year BCA students of 2024 as part of the IT Club—"Techno Freaks." The theme for this year, "Tech Explores: First Steps into BCA," was designed to immerse students in the diverse and exciting field of Information Technology.

Held on September 4, 2024, from 2:00 PM to 4:30 PM, the event took place in front of the Computer Science Department on the 5th level. This setting provided a vibrant and engaging atmosphere for both participants and attendees.

Participation and Topics

A remarkable total of 38 teams participated in the event, showcasing a variety of topics that reflect the breadth of the IT field. Some of the key areas covered included:

- **Artificial Intelligence:** Exploring the fundamentals and applications of AI technology.
- **Cyber Security:** Highlighting the importance of protecting information in the digital age.
- **Networks:** Understanding the backbone of modern communication and data exchange.
- **Programming Languages:** Discussing different languages and their relevance in software development.
- **Operating Systems:** Examining the critical role of operating systems in managing computer resources.

Judging and Evaluation

The event was judged by Mrs. Geethanjali R, an Assistant Professor in the MCA Department at MSRIT. Each team displayed their posters and provided concise explanations of their topics, which formed the basis for evaluation. The coordinators for the first-year students meticulously recorded attendance and assigned marks based on the quality of the presentations, creativity, and the depth of understanding demonstrated by the teams.

Winners

The competition concluded with recognition for the top performers, celebrating their hard work and creativity. The winners were as follows:

1. **First Place:** Nainika Mahesh and team
2. **Second Place:** Sadika and team
3. **Third Place:** Shraddha and team

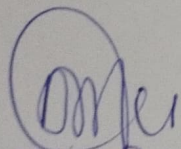

Additional Insights

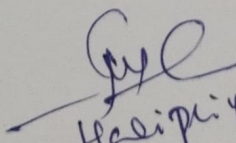

To enrich the learning experience, Mrs. Geethanjali also shared valuable insights with the students on effective poster preparation and presentation techniques. Her guidance helped students understand the nuances of effectively communicating their ideas visually and verbally.

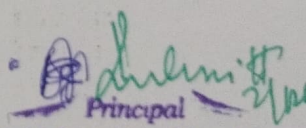

The event concluded with a heartfelt vote of thanks delivered by Ms. Bhumika, Assistant Professor in the Department of Computer Science, who acknowledged the efforts of all participants, judges, and coordinators.

Outcome

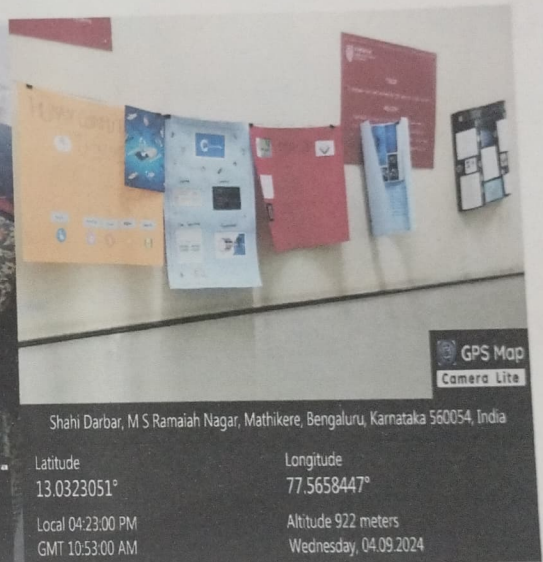

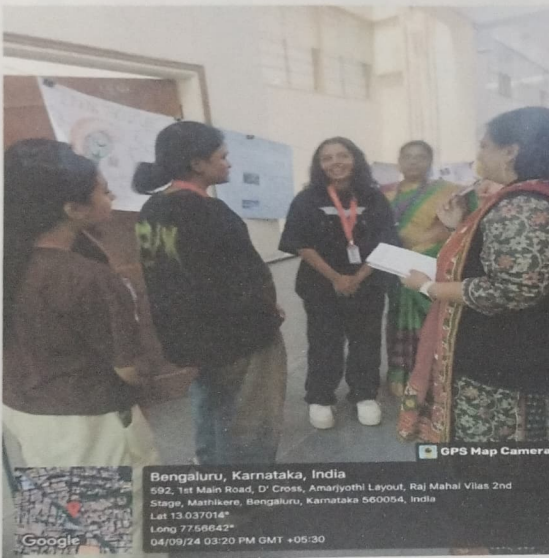

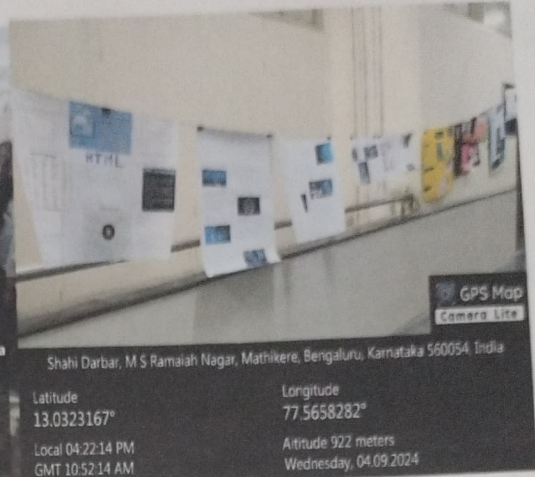

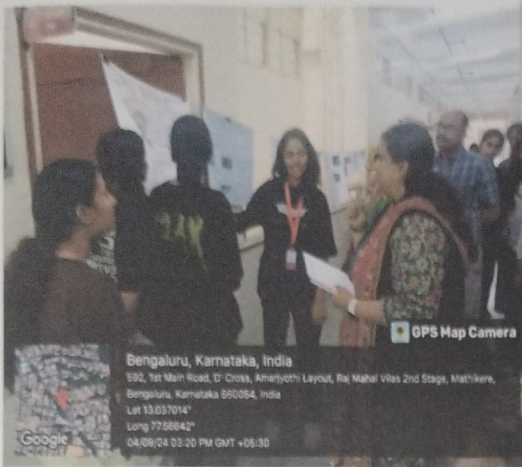

Through this event, students were encouraged to creatively prepare effective posters based on their own interests in IT. This not only allowed them to showcase their talents but also helped them earn activity marks, reinforcing the importance of active participation and engagement in their learning journey. The experience provided a platform for students to apply their knowledge, think critically, and collaborate with peers, ultimately enhancing their understanding of foundational computer science concepts.
