DEPARTMENT OF EMCs

CONDUCTING A VALUE-ADDED PROGRAM

ON

"IMAGE PROCESSING APPLICATIONS USING MATLAB"

FROM 18/08/2025 TO 20/08/2025

FOR FIFTH SEMESTER B.Sc. EMCs STUDENTS.

Resource Person

Mr. Chetan Naik J.
Lead Application Engineer |
Embedded System Design
Ramaiah Skill Academy
(RSA)

Objectives

- To introduce fundamental concepts of Image Processing.
- To enable students to build mini-projects in Face Detection, Object Recognition, and Image Enhancement.
- To bridge the gap between academic knowledge and industry requirements.

Program Coordinator
Mrs. Asharani R

HOD Mrs. Haritha A Principal
Dr. Pushpa H

Report of a Value-Added Program

OB

"Image Processing Applications Using MATLAB"

Date: from 18/08/2025 to 20/08/2025

COURSE: B Sc EMCs 5th SEMESTER

Resource person: Mr. Chetan Naik J.

Lead Application Engineer - Embedded System Design

Ramaiah Skill Academy (RSA)

Venue: Computer Lab 411

Objectives:

- To introduce fundamental concepts of Image Processing.
- · To enable students to build mini-projects in Face Detection, Object Recognition, and Image Enhancement
- To bridge the gap between academic knowledge and industry requirements.

Department of EMCS conducting a value-added Program on "Image Processing Applications Using MATLAB" from 18/08/2025 to 20/08/2025 for Fifth semester B.Sc. EMCs students.

The three-day Value-Added Program on "Image Processing Applications Using MATLAB" was meticulously designed to provide students with a balanced blend of theoretical foundations and hands-on practical exposure

On Day 1 (18th August 2025), the sessions commenced with an introduction to the MATLAB environment and its specialized toolboxes, enabling students to navigate and utilize the platform effectively. This was followed by an in-depth overview of image representation, covering pixel structures, grayscale, and color images. Students practiced essential operations such as reading, writing, resizing, and displaying images, while also exploring fundamental image transformations including rotation, scaling, and intensity adjustments, thereby gaining confidence in handling digital images.

ಎಮ್ ಎಸ್ ರಾಮಯ್ಯ ಕಲಾ, ವಿಜ್ಞಾನ ಮತ್ತು ವಾಣಿಜ್ಯ ಕಾಲೇಜು M S Ramaiah College of Arts, Science and Commerce

Re-accredited: A' by fIAAC, Permanently Affiliated to Bengafurs Cd z University. Approved by Government of Karnataka, Approved by AICTE, New Dean, Recognized by UGC under 2f & 12B of UGC act 1956.

On Day 2 (19th August 2025), the emphasis shifted towards image enhancement and feature extraction. Participants delved into techniques such as contrast stretching, histogram equalization, and filtering methods in both spatial and frequency domains. They applied noise removal and sharpening filters, and learned the implementation of edge detection methods using operators like Sobel, Prewitt, and Canny. The carefully designed hands-on sessions provided an opportunity to practically apply these concepts, reinforcing their understanding of image analysis techniques.

On Day 3 (20th August 2025), advanced topics were introduced, with discussions on image segmentation, thresholding methods, and morphological operations. Real-world case studies and applications were showcased, illustrating how image processing is widely used in fields such as medical imaging, security, and computer vision. To consolidate their learning, students presented mini-project demonstrations where they applied the techniques covered during the program. The final session concluded with an interactive Question &Answer, reflective discussions, and feedback collection, making the program an enriching and impactful learning experience for all participants.

The Value-Added Program on "Image Processing Applications Using MATLAB" successfully achieved its objectives by enriching students with advanced technical knowledge and practical skills. The Department of EMCS extends sincere gratitude to the Management, Principal, Faculty Members, and Resource Person Mr. Chethan Naik for their support in making the program a success.

Outcome:

- Students gained hands-on exposure to MATLAB for image processing.
- Improved understanding of digital image enhancement, segmentation, and feature extraction.
- Ability to apply image processing techniques for solving real-world problems.
- Encouragement towards research projects and higher studies in image processing and related fields.
