

B.Sc

ELECTRONICS, MATHEMATICS & COMPUTER SCIENCE

Message from EMCs HOD

I would like to take this opportunity to congratulate the editorial team of the B.Sc. (EMCS) program for publishing a newsletter that highlights the activities of our department over the last three months. We conducted workshops and training programs focused primarily on software skill development, all of which were successfully executed with the support of management and our expert faculty. Furthermore, this academic year, we plan to organize many more activities related to essential software and hardware skills. I sincerely acknowledge the efforts of the students, faculty members, and support staff during various curricular and extracurricular activities.

In our ever-growing world of technology, and communication, people are constantly looking for new and easier ways to use expression and become closer to the world around us. Digitization has sneaked into every aspect of our life. In this age of computers, Internet of Things where Electronic media has become an integral part of every person's life, we are making another attempt to publish this issue of E Newsletter-EMCs News 2025. The response by students encourages us to bring this issue. We take pride in presenting the current issue of Newsletter to you and we seek your co-operation for the future issues.

The Department of EMCS organized a three-day Value Added Program on Generative Artificial Intelligence (Gen AI) from **8th to 11th April 2025** for **VI Semester B.Sc. EMCS students**. The sessions were conducted by **Mr. Tarun Jain** from **AI Planet**, along with **Mrs. Meera Devi** and **Mrs. Soumya B. J.** from **MSRIT**. The program was designed to provide participants with a thorough understanding of Generative AI technologies, covering their practical applications, tools, ethical implications, and offering hands-on experience with advanced models such as **ChatGPT** and others.

The department of Mathematics organized a hands on training workshop on **“GeoGebra- From equations to Graphics”** on **3rd April 2025** for the students of **B.Sc EMCs**. The session was conducted by **Dr. Srikanth N**, Assistant Professor , Dept. Of Mathematics, MSRIT, Bengaluru. The workshop was designed to introduce participants to the powerful features of GeoGebra, a mathematical software geometry, algebra, calculus, and statistics into a

single, easy-to-use platform.
