

E - NEWS LETTER OCT To NOV 2024

B. Sc

ELECTRONICS, MATHEMATICS & COMPUTER SCIENCE

Success today requires agility and drive constantly to rethink, reinvigorate, react and reinvent. Come and join your hand with us to create a new Technology

Message from Electronics HOD

I would like to take this opportunity to congratulate the editorial team of the B.Sc. (EMCS) program for publishing a newsletter that highlights the activities of our department over the last three months. We conducted workshops and training programs focused primarily on software skill development, all of which were successfully executed with the support of management and our expert faculty.

Furthermore, this academic year, we plan to organize many more activities related to essential software and hardware skills. I sincerely acknowledge the efforts of the students, faculty members, and support staff during various curricular and extracurricular activities.

(Ms Haritha A)
