VISION

To prepare men and women for the service of the country.

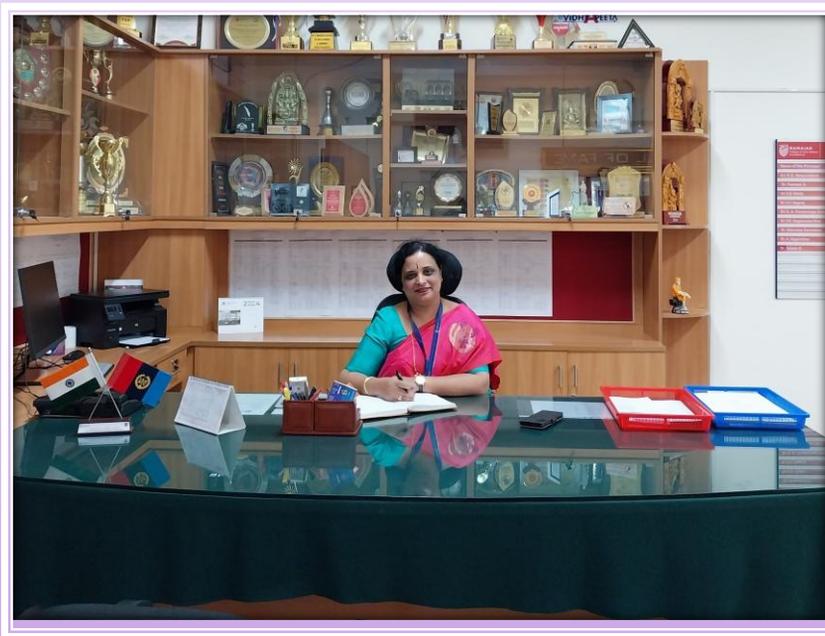

MISSION

Will deliver global quality education by nurturing a conducive learning environment for a better tomorrow through continuous improvement and customization

OBJECTIVE

1. To provide quality education
2. To impart life skills and values.
3. To train in confidence building and Decision making.

Principal's message

It fills me with immense pride and joy to reconnect with my dear alumni through this newsletter. Each of you have been an integral part of our institution's journey, and your achievements continue to inspire our current students and faculty alike.

At RCASC, we remain committed to fostering academic excellence, innovation, and holistic development. As we move forward, we aim to strengthen our alumni network, creating opportunities for collaboration, mentorship, and knowledge sharing. Your experiences and insights can make a significant impact on shaping the future of our students. I encourage you to stay connected, participate in our alumni events, and contribute to the legacy of RCASC. Your journey beyond our campus is a testament to the values and education you received here, and we take immense pride in your success.

Thank you for being a part of the RCASC family. We look forward to welcoming you back, celebrating your milestones, and working together towards greater achievements.

President's message (Alumni association)

This issue stands as a testament to the remarkable achievements and contributions of our alumni, who continue to make a positive impact in their respective spheres. It serves as a bridge that connects the past to the present, igniting nostalgia while embracing progress. I would like to express my gratitude and Thanks to the Principal Pushpa Madam, Jayaram Sir and all the Staff and all organising Committee of the Alumni Meet. I urge each one of you to actively engage with our alumni community, contribute your thoughts, and participate in the events and initiatives that keep our shared legacy alive. Let us continue to uplift each other and foster the values and memories that define our collective spirit. We are currently working on exciting initiatives, including Scholarship ,and your involvement can make a significant impact. Whether you share your expertise as a mentor, attend one of our upcoming reunions, or contribute and your participation enriches our community immensely. Thank you for your continued support and dedication to our alma mater. Together, let us build a vibrant and thriving alumni network that inspires generations to come.

Together, we can continue to make a difference and we need to give back to the society from where we have come from .

"Unforgettable College Days: A Journey of Growth and Discovery"

Dipti Priya, B. Com, Year Of Passing- 2020

One of the most interesting stages of my life that gave me an opportunity to learn and explore new things in life was the 'college phase'. Continuing my education in hopes of finding a great career, I joined RCASC. And, I must say I do not regret my decision. Classes have good interactions and the topics are very well explained. The teachers are friendly, supportive and kind. They motivated us to work hard, do better and always filled us with positivity. I appreciate our teachers for playing a crucial role in developing my overall personality and making me what I am today. We had amazing seniors too.

They encouraged us to participate in all sports and cultural activities conducted in college. The best part of college has to be cultural programmes and sports. And, our college always encourages healthy competition so student can learn and discover their potential from participating in different sports and cultural activities. It was always fun to participate in games, fashion show, dancing competition, etc. We also have a great library. When I was in final year, placements started. Great companies came to college for placements. Some of my friends got placed in well reputed companies and are currently working there. Our faculty helped and guided us during the whole process. I am now preparing for CAT. Last but not the least, I never thought about the day it would end. The exams ended and it seemed like everything changed. But, I was sure of one thing that I will never forget my college life and will miss it for the rest of my life. Also, I will be taking only good things from here.

"A Proud RCASC Journey: Gratitude, Growth, and Success"

I have a good memory with all my friends and teachers. I completed my studies in Ramaiah Campus from high school to till my graduation. Lecturers were good and friendly with the students, and they were always kind to the students and they cleared our doubts as soon as we ask, the faculties are really very kind and approachable when any need arises. Even though half of the classes were held online, they thought us as how they will teach in person. Today, if I am in a good position (Accountant) it's because of what I have learnt from RCASC. Lastly, I am really proud to be an RCASC and I have always believed in myself because at the end of the day it's your effort which makes the difference. I would thank whole heartedly to all the teachers and staffs in our institute who are still there and who were formerly working as well, for helping me in my difficulties.

"Time flies like an arrow", likewise the days I spent at RCASC were exactly like this proverb.

Hemavathi K, B. Com, Year Of Passing- 2021

""From Canteen Chats to Career Paths: My RCASC Adventure!""

Vinay H M, B. Com, Year Of Passing- 2021

I choose RCASC to pursue my Bachelor's degree due to its vast campus, knowledgeable faculty, immense culture and diversity. I'm glad to say that this prestigious institution not only met my expectations, but exceeded them. I'm highly grateful to the institution and the teachers who have played a vital role in the development of my career and enabled me to become an active and contributing member of our society through their guidance. College experience was indeed an excellent one. I can gladly say that I have made a boatload of memories, met a lot of amazing peers and enhanced my network.

RCASC is not only an institution which imparts knowledge but also encourages students to take active participation in Co-curricular as well as Sports activities. Over the duration of my Bachelor's Degree in Commerce, I was presented with several opportunities to participate in several Inter-College competitions. I'm glad to report that I was part of the team that has represented Ramaiah College of Arts, Science and Commerce at such events. Most of leisure time was spent at one of many canteens within the Campus, where most of me and my friends would hang out. I would also visit the College library for my examination preparations, where we would study in groups and help each other out in coming up with most efficient ways in overcoming our peers' doubts. I felt the reality of my College days beginning to end was only during my final year when several reputed companies approached our institution for campus placements. Several friends of mine were successfully placed in said companies. The faculty not only guided us during the placements but also counselled us to select appropriate career paths. Therefore, I decided to pursue the Chartered Accountants course. But in the end, all good things must come to an end and so it did. The last of our examinations were done. We were almost graduates now. There was a long path left for me to travel, but I'm certain that I will miss and cherish my college days the most.

""Proudly Ramaiah: Where Dreams, Crowns, and Memories Collide!""

Ramaiah was my dream college to pursue my master's. I'm proud enough that I have won Miss Ethnic-2024 that too from Ramaiah. Ramaiah has given me lots of memories. I have gained my insights from Ramaiah. I'm proud that I'm a brand of Ramaiah.

Chandana Batni, M. Com, Year Of Passing- 2024

"RCASC journey: Where I Led, Learned, and Lived My Best Life!"

Rahul A, B. Com, Year Of Passing- 2021

It was very good experience in RCASC, We were given equal scope in academics as well as sports and cultural. RCASC helped me to build my leadership skills, where it made me the captain in various aspects. I lead commerce club for two years, represented sports teams in the year 2018, conducted many cultural events like, Ethnic day, Kannada Rajyotsava, was head student Co-ordinator, bought in the sponsors for the first time in history RCASC For xtasy, and hosted a big event launch in RCASC. The four years I spent at RCASC were some of the best of my life. I made great friends, had wonderful experiences and memories, and learned so much.

I am truly grateful for all that college gave to me. Academically, I was challenged and pushed to reach my potential. I loved being able to explore different subjects and learn new things. And because of the small class sizes, I always felt supported by my professors. They were always willing to help me if I needed it. In terms of extracurriculars, RCASC offered a lot of opportunities to get involved on campus. I was able to play sports, join clubs and societies, and participate in cultural events. This was a great way to meet new people with similar interests to me.

"More Than Just a College—RCASC, My Launchpad for Life!"

Nikhil Bhardwaj, B. Com, Year Of Passing- 2021

I am overwhelmed with the opportunity I got to share my thoughts and feelings . I am really blessed to have such teachers and mentors in my life from whom I learned a lot and implemented to make my future bright. Today where I am standing in the career path is the second level and it's too strong and bold. Just because the first level roots are nourished in a great and best way. When i found out i got admission here, i was amazed as finally i got a chance to study here after hearing so much about the college prior. This college has been nothing less than what I had hoped for.

Supportive seniors and faculty, beautiful campus, quality education, real world experiences, and amazing friends, it's everything one needs from a college, and a network developed for life. The growth I have seen in myself due to RCASC, is invaluable. It has taught me things far beyond bookish knowledge and helped me broaden my horizon,. not only do they conduct various technical quizzes and events, but also many nontechnical events as well, to test the all round development of the students. With its management, law, pharmacy, diploma and architecture courses, there is a large variety of students on campus, providing everyone an opportunity to interact and learn from each other. Students are encouraged to take initiatives and hone leadership skills, so that they can cope with the world outside the campus. With the well furnished libraries on campus as well as online, students can easily access study materials to ensure quality output.

There are numerous canteen facilities and the sports grounds keep the students physically active as well. The classes are very interactive and faculties ensure that every student understands what is being taught before proceeding. Courses are challenging, yet very informative, so that we don't feel lost when entering the competitive market. All in all RCASC provides every student exactly what they need for life. Proud to be a part of RCASC.

“Beyond Books and Classrooms: The Entrepreneurial Spirit of RCASC”

College life is often described as the most transformative phase of an individual’s journey, and my three years at RCASC were nothing short of life beyond Books and Classrooms: The Entrepreneurial Spirit of RCASC-changing. Walking through the gates on my first day, I had one clear vision-to become an entrepreneur. Today, as I run two small-scale startups, I look back at my college years with immense gratitude, knowing that every experience, challenge, and achievement contributed to shaping the person I am today. From the very beginning, I found unwavering support in my mentor and proctor, Ms. Evelyn Nischitha Ma’am & my department professors. they stood by me through every challenge, encouraging me to push my limits and seize every opportunity that came my way.

Sindhu M, BBA, Year Of Passing- 2024

Academically, my journey was marked with significant achievements, including securing a 9.6 CGPA in my degree program. However, my college experience extended far beyond academics. It was about leadership, initiative, and community-building qualities that define an entrepreneur. Joining the National Cadet Corps (NCC) was a turning point in my college life. As a Junior Under Officer (JUO), I was second in command of a platoon of 108 cadets, coordinating state and national-level events and managing a team of 30 sergeants. The discipline, resilience, and leadership that NCC instilled in me were invaluable. Beyond NCC, I took on multiple leadership roles-Class Representative, Placement Coordinator, Sports Coordinator, and the Charter Secretary of the Rotaract Club.

One of the defining moments of my college journey was being selected as a Youth Delegate to China, Kunming, through the Confederation of Young Leaders India. This was not just a personal achievement but a moment of immense pride for my college and my country. Throughout this journey, my college stood by me, offering unwavering support and encouragement. Entrepreneurship is often defined by the willingness to take initiative, embrace challenges, and persist despite obstacles. My college life was a testament to this philosophy. From the very first day, I envisioned starting my own venture, and today, I run two small-scale startups. The journey wasn’t easy, but my time at RCASC taught me that success isn’t just about ideas—it’s about execution, resilience, and relentless effort. Balancing academics, leadership roles, and entrepreneurial ventures was demanding, but it was these experiences that built the character I hold today.

"From Classrooms to Championships: My Ramaiah Journey!"

My college days are the best part of my life. My department encouraged me to explore my talent & potential by providing an exceptional integrated learning environment. I am really grateful to my teachers Jayaram Sir, Roopa Mam, Roshini and Radhika Mam, Rajmohan sir. who have changed my whole aspect towards learning. I express my heartfelt thanks to the institution for giving me the perfect opportunity to explore myself. I am grateful to be part of such an institution. My studies and sports have help me build my personal and professional. I was overall sports champion for 5 consecutive years has built confidence to survive real life challenges. We need these kind institutions and teachers for better future generations. Thank you RCASC.

Syeda Nikhat, B. Com, Year of passing, 2004

"Veeres Forever: From Awkward Stares to Endless Chatter!"

We called ourselves veeres. So much so that it was once called our group chat, our songs, gifts everything somehow ended up veeres written on it! I'm sure everyone who made it through college would say this but I truly survived my 3 years because of these idiots, they made it fun enough that I still carry our picture on me all the time. Introverted me who could barely make eye contact with new people left an extrovert who now talks non stop with everyone that makes eye contact! I doubt neither can amnesia make me forget them. Cheers to unforgettable memories!

Muskan Syed, B. Sc. (BT), Year of passing, 2022

"NCC, Friendships & Endless Memories – My College Chronicles!"

College days were some of the most memorable & transformative years of my life. Being part of the NCC was a proud experience, and I have fond memories of participating in the annual parades. The discipline, camaraderie, and leadership skills I developed during this time have shaped who I am today. I was fortunate to have formed lifelong friendships during these years, and the bonds we created through shared experiences are something I'll always cherish. Cultural activities, managing events, being head of placement dept, helping my mates and teachers in every possible way played a huge role in making college life exciting. From performances and drama to music and dance, every event brought a sense of unity and creativity. I truly felt like a part of something bigger. Those days taught me the importance of balancing academics with extracurriculars, and I'll always look back on them with immense gratitude.

Khushi M, B. Com, Year of passing, 2023

"From Code to Coffee: A Developer's Journey to Brewing Success!"

I Completed BCA from RCASC in 2016, followed by an M.Sc. in Computer Science from Bangalore North University and a Diploma in VFX and Animation from Bangalore University. Formerly a Software Developer at Transworld Systems India (TSI), Bellandur, Bengaluru, I am now the CEO & Founder of Mr. Smoothy Cafe in my hometown, Patna, Bihar, since March 2023.

Amar Singh, BCA, Year of passing, 2016

"NCC, Friendships & Endless Memories – My College Chronicles!"

Akanksha P, BBA, Year of passing, 2024

I am Akanksha, a BBA graduate and a freelance model based in Bangalore. Three years ago, I stepped into MS Ramaiah College of arts, science and commerce with the ambition to excel academically while exploring new opportunities. My journey here has been transformative, shaping me both personally and professionally.

MS Ramaiah College was more than just a place of learning, it was a space that encouraged me to grow beyond textbooks. From participating in inter-college fests to competing in cultural events as the fashion team coordinator, I had the chance to explore my skills and build lasting memories with my peers. The college was always supportive, providing us with the right guidance and opportunities to excel in different fields.

Alongside my studies, I was also pursuing my passion for modeling, which I began at the age of 16. Balancing both academics and modeling was a challenge, but one I embraced wholeheartedly. During my college years, I worked with brands like Fastrack, Myntra, GRT, and Giva jewelry, and several shows gaining industry exposure while continuing to focus on my education. One of the defining moments of my modeling journey was when Face of Fashion held auditions at our college, bringing an industry-recognized platform to our campus. These experiences not only helped me grow as a model but also strengthened my ability to manage multiple responsibilities.

I was also an active part of the Placement Council, working closely with our Placement Head, Mr. Madhusudan Sir. Being involved in the placement activities gave me the chance to contribute to the career growth of my peers while also gaining valuable insights into the corporate world.

Despite my modeling commitments, I remained dedicated to my academics, always making it a priority to attend classes and push myself to achieve more. My hard work paid off when I graduated with a 9.14 CGPA, securing the fourth rank in my batch. My dedication was recognized when I was awarded the Woman Achiever title for my contributions to academics and cultural activities, a moment of immense pride and motivation by the Women's cell at MSRCASC.

Today, I am a full-time model with several exciting projects lined up. While my journey in the fashion industry continues, my academic aspirations are far from over. I am preparing for something big, and there is so much more to come. What's next? Well, you'll have to wait and see. Stay tuned.

“From First Bell to Farewell: My Unforgettable College Journey”

Here's to new adventures, bigger dreams, and never using “per my last email” passively-aggressively in work emails. Cheers!

Tarunya H M, BBA, Year of passing, 2024

Graduation is not just a ceremony; it is the closing of one chapter and the beginning of another. As I, Tarunya HM, step out of MS Ramaiah College of Arts, Science, and Commerce after completing my Bachelor's in Business Administration (BBA) from the 2021-2024 batch, I am filled with a mix of nostalgia, gratitude, and excitement for what lies ahead. “If I had a rupee for every time I said, ‘I’ll start studying tomorrow, I’d be richer than my GPA suggests.’” Walking into RCASC in 2022, I thought college would be a Bollywood movie slow-motion entries, grand friendships, and perfect endings. Turns out, it was more like a sitcom, filled with last-minute assignments, accidental naps in class. Studying HR and Financial Analytics was more than just textbooks and Excel sheets. It was about decoding businesses, mastering analytics, and pretending to understand economics when asked in class. Our professors weren't just educators; they were philosophers, comedians, and occasional drill sergeants before exams. They taught us things Google couldn't, like the importance of deadlines (still learning) and how to survive presentations with minimal preparation. Some of the best lessons weren't in the syllabus. They were in canteen debates, chai breaks, and those “group study” sessions that turned into snack feasts.

Being a content creator, I got to blend academics with my passion. Between attending lectures and creating content, I found a community that supported my dreams—whether it was filming a brand collaboration or just vlogging my daily college life. Graduating feels surreal. This journey wasn't just about earning a degree—it was about discovering who we are, where we're headed, and how to function on four hours of sleep. To MS Ramaiah, thank you for the memories, the lessons, and the best three years of my life. And to my batchmates—may your careers be as bright as our laptop screens the night before submissions.

"From First Day Jitters to Graduation Cheers"

Tejashree .V, BBA, Year of passing, 2021

Embarking on the journey of earning a bachelor's degree is more than just an academic pursuit—it's a transformative experience that shapes your personality, broadens your horizons, and prepares you for the challenges of the real world. As I reflect on my time in college, I realise how much I've grown, not just as a student but as an individual. I still remember my first day at college- a blend of excitement, curiosity, and a hint of nervousness. Walking into the campus, I was greeted by a sea of unfamiliar faces, each person carrying their dreams and aspirations. The initial days were overwhelming, with new routines, challenging coursework, and the pressure to make friends. But as time passed, I began to find my footing. Over time, I learned the importance of time management, discipline, and perseverance. There were moments of self-doubt, especially when faced with difficult subjects or tight deadlines, but overcoming these challenges taught me resilience. My professors played a crucial role in shaping my perspective, encouraging critical thinking, and pushing me to explore beyond the syllabus. One of the most valuable lessons I learned was that education is not just about memorising facts but about understanding concepts, asking questions, and applying knowledge to real-world problems. Internships gave me a taste of professional life and helped me connect theory with practice.

College life is incomplete without the friendships and memories you create along the way. From bonding over cafeteria food to pulling all-nighters before exams, my friends became my support system. We celebrated each other's successes, stood by during tough times, and shared countless laughs. These relationships taught me the importance of empathy, teamwork, and communication—skills that are invaluable in both personal and professional life. As I approached the final year of my degree, the focus shifted to career planning and future goals. I started to prepare for the process of pursuing my masters abroad. I realised that the skills I had developed over the years—problem-solving, adaptability, and communication—were just as important as my academic knowledge. Graduation day was a bittersweet moment. While I was proud of my achievements, I knew I would miss the college life that had become such an integral part of my identity. Walking across the stage to receive my degree, I felt a sense of accomplishment and gratitude for all the experiences that had shaped me. My journey through college was a rollercoaster of emotions, challenges, and triumphs. It was a time of learning, growing, and creating memories that I will cherish forever. As I step into the next chapter of my life, I carry with me the lessons, friendships, and experiences that have made me who I am today. College was not just a phase; it was the foundation for my future, and I am forever grateful to everyone who was a part of this journey. To anyone starting their college journey, my advice is simple: embrace every moment, take risks, learn from failures, and make the most of this incredible opportunity. It's not just about earning a degree—it's about discovering yourself and preparing for the adventures that lie ahead.

" My Legacy at RCASC"

Chitranjan. R, B.Sc. (BT), Year of passing, 2014

College isn't just a place; it's a journey where we grow, evolve, and create memories that last a lifetime. Stepping into MS Ramaiah College of Arts, Science and Commerce in June 2011 was like stepping into a new world—a world full of opportunities, challenges, and lifelong friendships. Coming from a small town, my biggest struggle was English communication and confidence, but Ramaiah became the foundation where I built myself, step by step. Cherished Memories:- Securing 1st Place in Interclass competition in Easy Writing on the occasion of Hindi Diwas; Securing 2nd place in Interclass competition in Quiz; Securing 2nd place in fireless cooking; Reciting poetry for welcoming Juniors for batch 2014-2017; Late-night hostel discussions and last-minute exam revisions - The iconic discussion and questions in Microbiology Lab with Shilpa ma'am, Ramya Ma'am Why are you late, Ranjan? Where is your apron? The perfect precision in Chemistry Lab under the guidance of Prasanna Sir and Malini Ma'am - The laughter-filled yet insightful Biotechnology sessions with Alka Ma'am, Ramya Ma'am, Yoganand Sir and Pratibha Ma'am- The irreplaceable life lessons from Surekha Ma'am, whom we remember with deep respect and love. From overcoming my fears to embracing new challenges, from dreaming big to making them a reality, MS Ramaiah didn't just educate me; it shaped me. Even today, as I navigate the corporate world, I realize that the values of discipline, perseverance, and excellence that I learned here are my greatest strengths. Ramaiah was, is, and will always be home!

"Red Fort Chronicles: The Last Legends of MSR"

Prabhusankar G M, M.Sc. (BT) Year of passing, 2017

These are my fun, happy, memorable, beautiful, emotional, euphoric days at M S Ramaiah College. The people in this photo are the main reasons to make the moment memorable. These are basically a time capsule ! I am basically a moderately introvert person, I am quite secluded to talk and mingle with new people, but after coming to college I was forced to talk to people and make new connections my confidence reached a new high and I gain knowledge and experience of new people I made connects with. I have spent solid 5 years at M S Ramaiah College, and I am very thankful to all my friends, best friend, teachers and professors this basically shaped a new me which I might have not explored ever before. The best and exclusive part is we are the last batch to leave from the Red Fort (old code name for old college building) and move to the new modern one. We were the last batch students to participate if Bangalore University (BU) the new batch was later moved to Central University (CU). I couldn't point one moment, and I cherish all the moments the photographers speaks it all.

"Campus Chronicles: Lessons, Laughs, and Lifelong Bonds!"

My college experience was truly transformative. The supportive community, engaging professors, and countless opportunities for growth helped shape me into the person I am today. I'm forever grateful for the lifelong friendships, invaluable lessons, and unforgettable memories made within those campus walls.

Jayshree K, B.Com, Year of passing, 2023

"Leaving a Legacy: Cherished Memories from my College Years"

Ayushi Hisaria, B.Sc. (BT) Year of passing, 2019

My college experience is defined by the knowledge and skills I gained throughout my academic journey. From challenging coursework to thought-provoking discussions in class, my professors pushed me to think critically and expand my horizons. They not only imparted valuable lessons but also served as mentors and role models. Their guidance and support have played a significant role in shaping my career path and personal growth. Looking back, I am grateful for all the opportunities and experiences that my college provided me. I know that these memories will stay with me for a lifetime and continue to shape my choices and decisions. And it is this legacy that I want to pass on to future generations of students. In conclusion, college is not just about obtaining a degree; it is a transformative journey that shapes who we are and leaves behind a legacy for others to follow. As I move forward in life, I am grateful for the lessons learned, the friendships formed, and the memories created during my college years. And I cannot wait to see what lies ahead as I continue to carry on this legacy. Today I am proud of myself, as my book "The Science of Sustenance Understanding the Impact of Food Biotechnology" has got published, and its available on Amazon and Flipkart.

"MSRCASC: Where I Leveled Up in Life!"

My time at MSRCASC was truly transformative. The supportive faculty, engaging curriculum, and vibrant campus community provided the perfect environment for me to grow both academically and personally. I left feeling prepared and confident for my future.

Sanjana Paddambail, B.Sc. (BT)

"Rebels in Sync: The Accidental Dress-Code Squad!"

DV Pujitha, M.Sc. (BT), Year of passing, 2024

Having a dress-code day was the best part of our college days. We used to start our hours decision oathing to each other not to follow the rules but end up wearing the same. And of course, our best matching outfit was our graduation gown. Unlike others with sentimental goodbye, we had our daily fun regardless the last day. We were happy souls even in the end.

"Can We Please Rewind? A Day of Fun, Friendship & Frames!"

Ramaiah always has a piece of my heart. I completed my B. Sc with my special friend and we both share same names. The journey has been amazing with amazing people. I always wanted to say this- "only in my B.Sc. have I seen such kind hearted , passionate people who's obviously inspired me so much in life. I still cherish the memories spent there and will have my heart feel so much. There was so much love and fun and innocence and the journey was very beautiful.

There are many memories at Ramaiah and I can't say just one. But, one which has my whole heart is, I and Bhavana, my special friend had been to this talk at GKVK on 21st January 2020 I guess. I really don't remember anything about the talk but the exhibition there on science caught us and we soon got distracted by some park, where we didn't play but took pictures and filled our galleries with sweet memories. I've shared one picture from that day too! Can we please go back in time?

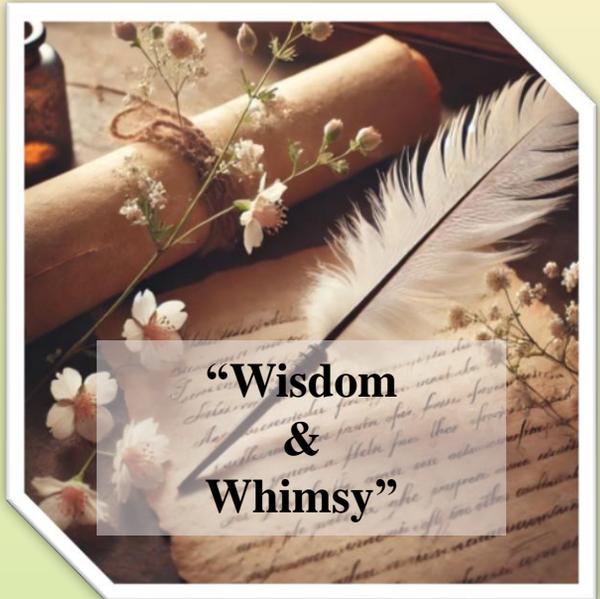

Bhavana S.P, B. Sc. (Genetics), Year of passing, 2020

Sneha K Naik, B.Sc. (BT) Year of passing, 2018

Ramaiah was never just walls and halls,
It was home, where our laughter calls.
Three of us, a bond so tight,
A Powerpuff trio, shining bright.
Others came, but none could stay,
Somehow, they drifted, and we found our way.
Through chaos and fun, we stood so tall,
A trio unshaken, through rise and fall.
Last bench whispers, stolen snacks,
Sleeping through lessons, dodging the cracks.
Bunking classes, escaping sight,
Living college in our own light.
A suspension letter—what a feat,
First in biotech, can't be beat.
Not our proudest, yet we smile,
For memories made are worth the trial.
Twinning days, the eyes they drew,
Looking back, it seems so new.
Attendance woes, always behind,
Remedials? Oh, the ties that bind.
"Snehaaaa, again?"—a familiar tune,
From Soumya ma'am, morning to noon.
Yet Asha ma'am, with love so deep,
Held us close, a bond to keep.
Now time has flown, yet here we stand,
Miles apart, but hand in hand.
For friendships carved in laughter's hue,
Are ones that time cannot undo.
Whenever we meet, the echoes play,
Like last bench days were yesterday.
For though we've grown and life moves fast,
The Powerpuff days forever last.

**“Wisdom
&
Whimsy”**

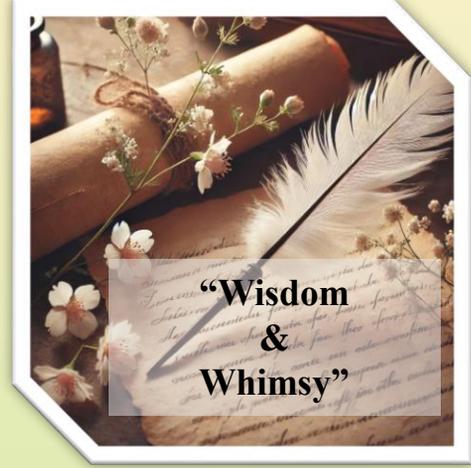

Yashaswini PN, B. Com, Year of passing, 2024

People make us laugh, cry but at last everyone cries to get apart. That's the journey of every students. Few students will be waiting to get over with their college life because they didn't find a best companion in this journey and some people hates to finish this journey and separation. At last everyone carries memories it may be a flourishing one or a nightmare for them, It depends on what they choose from the beginning of their college journey!

Chitranjan. R, B.Sc. (BT), Year of passing, 2014

मंजिल

जीवन के इस पड़ाव पर,
उम्र के इस बहाव में,
कितने सारे प्रश्न के उत्तर नहीं पाता हूँ,
अनजानी-बेगानी राहों पर,
मैं, बस चलता जाता हूँ मैं, बस चलता जाता हूँ-
कुछ अनसुलझे हालात लिए,
जिंदगी से कुछ सौगात लिए,
कुछ अनकहे अल्फाज लिए,
कुछ बिगड़े हुए सुर लिए,
कुछ बिगड़े हुए साज लिए,
कुछ टूटे-बिखरे ख्वाब लिए,
कुछ अन समझे अधूरे जज्बात लिए,
मिला ना मुझ को अंजाम,
उस अंजाम का आगाज लिए,
मैं बस चलता ही गया, मैं, बस चलता ही गया,
अपनी मंजिल को ढूँढने,
अपने सपनों को हकीकत में पीरोने,
टूटे हुए सपनों को जोड़ने,
जिंदगी के अधूरेपन को भरने,
अपने टूटे हुए सपनों को जोड़ने,
बस चलता ही गया, मैं बस चलता ही गया
मैं बस चलता ही गया

अकेले-अनजान राहों पर,
सुन सान राहों पर,
अनकहे अनसुलझे पहलू को सुलझाने,
अपने मंजिल को पाने,
चलता ही गया चलता ही गया,
आज भी मुझे चाहत है-
अपने सपनों की-
मुझे जरूरत है,
मेरे अपनों की-
आज भी मैं जा रहा हूँ
अपने सपनों की खोज में,
अपने अपनों की खोज में,
ना जाने किस मोड़ पर,
अपने मिल जाए-
ना जाने किस मोड़ पर,
मेरे सारे सपने पूरे हो जाए,
आज भी मैं जी रहा हूँ
अपने सपनों को हकीकत में,
पीरोने की कोशिश कर रहा हूँ!!
