### **Tal-patra Manuscripts (Palm -leaf):**

The MSRCASC Library & Information Center has procured a Talapatra (palm-leaf) manuscript that is approximately 500 years old. This manuscript consists of a bundle of around 100 neatly shaped, uniform-sized leaves, strung together with a cord and securely pressed between two wooden boards.

Two palm-leaf manuscripts, one above the other, with handwritten text in an ancient script. Each leaf has a hole punched near the center, and a thin wooden peg is inserted through the hole to hold the leaves together. The text is arranged in horizontal lines across the length of the leaves.
